

Community College Gap Assistance Program

January 2024

OVERVIEW

The Community College Gap Assistance program was established by the Nebraska Legislature in 2015 to address identified skilled workforce shortages. The program provides financial aid to low-income community college students enrolled in credit or non-credit programs of study that prepare them for jobs in high-need fields but are not eligible for Pell or state Nebraska Opportunity Grants, which serve only students enrolled in for-credit courses leading to certificates or degrees. The Gap Assistance program addresses an identified affordability and workforce preparation “gap.”
