### IPEDS College Graduation Rates

#### **Explanatory Note A10.1 Information on Computed College Graduation Rates Based on Data Obtained through the Integrated Postsecondary Education Data System (IPEDS)**

Data collected through the Integrated Postsecondary Education Data System (IPEDS) are available from the National Center for Education Statistics to calculate the percentage of undergraduates who complete their degree programs within 150% of specified time periods. Students in four-year programs are considered to be “completers” if they graduate within six years from the time of their first enrollment. For two-year programs, the time frame for completion is three years.

The graduation rate that is calculated for an institution using IPEDS data is typically based on a cohort of full-time, first-time degree/certificate-seeking undergraduates who enrolled at the institution during the fall semester (or quarter) or the preceding summer.<sup>1</sup> The rate is calculated by dividing the number of completers by the number of students in the cohort and multiplying the fraction by 100 to express it as a percentage. The resulting percentage may be referred to as a “completion rate” or “graduation rate.”

A cohort may be adjusted (reduced) only by removing (deleting) students who leave the institution for any of the following reasons: death or total and permanent disability; service in the armed forces; service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. Otherwise, students remain in a cohort group even if they become part-time students, transfer to other institutions, or drop out of the institution permanently or temporarily.

With or without cohort adjustments, graduation rates based on IPEDS data are estimates of the percentage of full-time, first-time degree/certificate-seeking students who complete their academic programs at the same institution where they were enrolled as freshmen. These rates do not estimate the percentage of all students who complete their degree programs after transferring to other institutions, who started their degree programs in the winter or spring, or who initially enrolled at the institution as part-time students.

<sup>1</sup> A full-year cohort, rather than a fall cohort, is used by schools offering primarily occupational or vocational programs and operating on a continuous basis. In Nebraska, several for-profit career schools operate on a continuous basis, qualifying them to use a full-year cohort. For all other institutions in Nebraska, a fall cohort is used in calculating graduation rates.

**Explanatory Note A10.2  
Computation and Comparison of College Graduation Rates by Sector**

Table A10.2 and Table A10.3 compare the latest available graduation rates for the six sectors of postsecondary education to the sector rates in 2002–2003, which is the baseline for this report. The schools that comprise the public and independent (not-for-profit) sectors are the same each year. However, since 2007, the following three for-profit/career schools have changed from non-degree granting to degree-granting status: Alegent Health School of Radiologic Technology, Mary Lanning Memorial Hospital School of Radiologic Technology, and Omaha School of Massage and Healthcare of Herzing University (formerly known as Omaha School of Massage Therapy).

For the comparisons shown in Table A10.2 and Table A10.3, the sector rates for the *degree-granting*, for-profit/career schools for 2002–2003 and 2012–2013 are computed *including* Alegent, Mary Lanning, and Herzing, so that these sector rates reflect the graduation rates of the same series of schools. For this comparison, the sector rates for the *non-degree-granting*, for-profit/career schools for 2002–2003 and 2012–2013 are computed *excluding* Alegent, Mary Lanning, and Herzing, even though these schools were non-degree granting as of fall 2003.

Table A10.4.a through Table A10.4.k summarize the graduation rate data by sector and by institution for each year since 2002–2003. In each of these tables, the for-profit/career schools are listed as degree granting or non-degree granting based on how they were classified at the time the graduation rate data for the year were collected.

<sup>a</sup> All of the career schools are operated for profit except for three schools of radiologic technology, which are operated by not-for-profit hospitals or medical centers. All three schools of radiologic technology were non-degree-granting schools until 2007. Alegent Health School of Radiologic Technology and Mary Lanning Memorial Hospital School of Radiologic Technology became classified as degree-granting schools beginning fall 2007 and fall 2010, respectively. The for-profit Omaha School of Massage Therapy was renamed Omaha School of Massage and Healthcare of Herzing University and became classified as a degree-granting school beginning fall 2009.

### Technical Note A10.3

A graduation rate or a comparison of graduation rates is not applicable (NA) when a school had no first-time freshmen in a graduation cohort for one or both years compared.

All of the schools in the for-profit/career school categories are operated for profit except for the three schools of radiologic technology, which are operated by not-for-profit hospitals or medical centers.

#### Institutional changes and additions:

- Alegent Health School of Radiologic Technology became classified as a degree-granting school beginning fall 2007.
- Dana College was closed in August 2010 and did not report to IPEDS thereafter.
- Doane College-Lincoln first conferred degrees in 2005–2006.
- Fullen School of Hair Design conferred degrees and awards for the first time in 2003–2004.
- Hamilton College became Kaplan University as of October 30, 2007.
- Mary Lanning Memorial Hospital School of Radiologic Technology became classified as a degree-granting school beginning fall 2010.
- Myotherapy Institute conferred degrees and awards for the first time in 2003–2004.
- Omaha School of Massage Therapy was renamed Omaha School of Massage and Healthcare of Herzing University and became classified as a degree-granting school beginning fall 2009.
- Universal College of Healing Arts first conferred degrees in 2005–2006.
- University of Phoenix-Omaha Campus first conferred degrees in 2006–2007.

<p><i>Note.</i> See <a href="#">Technical Note A10.3</a> for information on institutional sector changes and definitions. Data source: National Center for Education Statistics, fall 2010 IPEDS data collection.</p> <p><sup>a</sup>Josephs College of Beauty-Lincoln originally reported 104 students in the cohort, 103 of whom completed degrees (99.0% graduation rate). These numbers were reported in versions of this report prior to 2014 and are incorrect. Due to problems with the college's data system, which has been replaced, the correct rate is not known, but it probably is in the range of 55% to 60%. Since the correct numbers are unknown, Josephs' students are not included in these figures. These changes also affected the sector and state totals as shown in this version of the table.</p>

Total Known Race/Ethnicity	7,673		7,962		
<p><i>Note.</i> Counts do not include foreign students and students of unknown race/ethnicity. The rates within the for-profit/career school sectors for 2002–2003 and 2012–2013 are calculated based on how the schools were classified as degree granting or non-degree granting as of fall 2013. The race/ethnic category 'two or more races' was first available in IPEDS for fall 2008 enrollment. However, institutions were not required to use the new race/ethnic category until fall 2011 enrollments were reported. Data source: National Center for Education Statistics, fall 2003 and fall 2013 IPEDS surveys.</p>
