Note. High school graduates include graduates of educational service units and state-operated systems as well as public and nonpublic high school graduates. Graduates do not include GED recipients or completers who did not receive regular diplomas. Nebraskans who have delayed going to college for more than a year after they graduated from high school are not included in the calculation of Nebraska's college continuation rate because there is no way of determining from IPEDS data when they received their high school diplomas. FTF = first-time freshmen. HS = high school. Continuation rate = the number of first-time freshmen who graduated from high school within the past 12 months and enrolled at degree-granting or non-degree granting institutions divided by the total number of high school graduates. Includes both full-time and part-time students. Data sources: For high school data, Nebraska Department of Education, January 2007 for 2001–02 through 2005–06, January 2009 for 2007–08, February 2011 for 2009–10, and December 2013 for 2011–12 data; for first-time freshmen data, National Center for Education Statistics, IPEDS fall survey data for 2002, 2004, 2006, 2008, 2010, and 2012. Data for students attending college out of state were obtained directly from the IPEDS database cutting tool. Data for students attending college in Nebraska were obtained from the CCPE IPEDS survey download.

<p><i>Note.</i> Low-income students = students approved to receive free or reduced-price school lunches (FRL). Non-low-income students = students not approved for FRL. The non-low-income students include at least some students who live in low-income households, but who do not apply for FRL. Since participation in the FRL program is the only indicant of household income in the student records maintained by the Nebraska Department of Education, low-income students in the non-low-income category cannot be identified or excluded for the purposes of analysis. College continuation rate = the number of students enrolled in college on or before April 7, 2009 (2007-08 graduates), April 20, 2010 (2008-09 graduates), April 28, 2011 (2009-10 graduates), April 24, 2012 (2010-11 graduates), April 9, 2013 (2011-12 graduates), or April 9, 2014 (2012-13 graduates), divided by the total number of students who graduated from Nebraska public high schools during the academic year. Data sources: For high school graduates, Nebraska Department of Education, April 2009, April 2010, April 2011, April 2012, April 2013, and April 2014; for number of graduates who enrolled in college, National Student Clearinghouse, April 2009, April 2010, April 2011, April 2012, August 2013, and April 2014.</p>			

Appendix 6

Nebraska and Non-Nebraska, First-Time Freshmen Migration Data

Explanatory Note A6.1 Nebraska-Resident, First-Time Freshmen Migration Data Collection and Limitations

The data used to estimate the number and percentage of Nebraska high school graduates who go to college in Nebraska or out of state are collected every two years by the National Center for Education Statistics (NCES) through the Integrated Postsecondary Education Data System (IPEDS). Referred to as “migration” or “residency” data, these data are collected through the fall IPEDS surveys that are conducted in even-numbered years. Consequently, the latest available data are for fall 2012 representing the 2011–2012 academic year. Data for fall includes students who start college during the summer, but does not include students who start college in the winter or spring.

Based on the IPEDS data summarized below, almost 99% of all Nebraska-resident first-time freshmen (FTF) attended degree-granting institutions in fall 2012.

Total	18,247	100.0%	19,083	100.0%	17,925	100.0%
<i>Note.</i> Includes full-time and part-time students. Institutions are classified as degree-granting, based on their classification at the time of each fall survey. Data sources: National Center for Education Statistics, fall 2002, 2004, 2006, 2008, 2010, and 2012 IPEDS surveys; and records maintained by Nebraska’s Coordinating Commission for Postsecondary Education, 2011 and 2012.						

The residency data reported by the non-degree-granting institutions in Nebraska for 2002 and 2004 were not as complete or consistent as the data reported by the degree-granting institutions. In order to maintain comparability with the 2002 baseline data, Nebraska-resident FTF who attended non-degree-granting schools are excluded from further analysis of the enrollment trends of Nebraska-resident freshmen presented in this section of the *Progress Report*.

The data collected from degree-granting, independent institutions and for-profit schools in fall 2002, 2004 and 2006 are limited by the fact that a few schools did not report the numbers and residence status of their first-time freshmen who graduated from high school within 12 months of college enrollment. See [Table A6.8.a](#), [Table A6.8.b](#) and [Table A6.8.c](#) for the institutions that did not provide this information.
