*Dr. Baumgartner reported on recent institutional visits and meetings*

Dr. Baumgartner reported that he visited Central Community College in Grand Island in July to see the completed Center for Health and Technology Building with President Matt Gotschall, and then traveled to CCC Columbus to tour the Center for Science and Technology, which is still under construction, with campus president Kathy Fuchser.

In August Dr. Baumgartner visited Metropolitan Community College's South Omaha campus to see the new Automotive Technology Center and the renovated Center for Advanced Manufacturing with President Randy Schmailzl and Stan Horrell, Director of Campus Planning and Sustainability.

Dr. Baumgartner noted that last week he was hosted at the University of Nebraska at Kearney by Dr. Charlie Bicak, Senior Vice Chancellor for Academic Affairs, toured the new Discovery Hall, and met with Chancellor Kristensen, three new deans (Drs. Teten, Reid, and Jares) and members of UNK's Academic Affairs leadership team. They have invited the Commission to meet at UNK, and while 2022 is full, we hope to meet there in 2023.

Dr. Baumgartner stated that on September 24 he will be meeting with the new University of Nebraska at Omaha Chancellor Joanne Li and Dr. Martha Garcia-Murillo, the new dean of Information Science and Technology.

*Dr. Baumgartner to testify on LR 180*

Dr. Baumgartner has been asked to testify before the Education Committee next week on LR 180, which requires an in-depth review of how at-risk and economically disadvantaged students are identified as a qualification factor for state-funded, education-related programs at the primary, secondary, and postsecondary education levels. For Commission purposes, the use of Free and Reduced Lunch eligibility to qualify for the Access College Early scholarship is most pertinent, though we also use the Free Application for Federal Student Aid (FAFSA) to determine eligibility for the Nebraska Opportunity Grant program.

Dr. Baumgartner announced that we have signed a contract with Nebraska Indian Community College for their participation in the Community College Gap Assistance Program. Little Priest Community College has chosen not to participate at this time.

---

*Dr. Baumgartner spoke on staff meetings and activities*

Reporting on staff happenings, Dr. Baumgartner noted that Dr. Kathleen Fimple has participated in multiple virtual NC-SARA meetings, and plans to attend the SHEEO Policy Conference in DC in November. In November Dr. Baumgartner plans to attend the Midwestern Higher Education Commission meeting in Grand Rapids, MI, and the Higher Learning Commission State Agencies Annual Meeting in Chicago. Financial Aid Officer, Ritchie Morrow is on the road auditing CCPE's financial aid programs at campuses.

**Chair Aspen closed the public hearing on Planning and Consumer Information Committee Items.**

Chair Aspen called for a break at 11:55 a.m. The meeting resumed at 12:06 p.m.

### **PLANNING AND CONSUMER INFORMATION COMMITTEE**

Commissioner Lauritzen filled in for Commissioner Garman, new PCI Committee Chair, in his absence. She introduced Jill Heese, Research Director, to present the Enrollment section of the *2021 Factual Look at Higher Education in Nebraska*.

### **2021 Factual Look at Higher Education in Nebraska: Enrollment**

Ms. Heese delivered a PowerPoint presentation summarizing the Enrollment section of the *2021 Factual Look at Higher Education in Nebraska*. The report is primarily an online publication used by legislative staff, institutional researchers, and Commission staff looking at 10-year trends from fall 2010 through fall 2020. She noted that historic FTE numbers changed slightly. CCPE previously calculated each institution's FTE but is now using FTE values calculated by IPEDS. Total fall enrollment was down 2.6 percent over the last year and down 7.1 percent over the 10-year period. The report includes graphs and details regarding enrollment for students by sector, student

---

level, full-time/part-time classification, gender, race/ethnicity, age, and distance education status.

Ms. Heese added that she has created a 6-digit CIP data dashboard, which enables end users to easily analyze Nebraska's postsecondary award data. She provided a demonstration on using the dashboard on the CCPE website.

*Next Commission meeting is December 2, 2021*

#### **FUTURE MEETINGS**

The next Commission meeting will be Thursday, December 2, 2021, 8:30 a.m. at the Apothecary/Ridnour Building, 5<sup>th</sup> Floor, North Loft, Lincoln, Nebraska.

*Commissioner Lauritzen comments*

#### **COMMISSIONER COMMENTS**

Commissioner Lauritzen commented that this is her 21<sup>st</sup> year on the Commission and it never fails to amaze her as she always learns something new about postsecondary education.

*Chair Aspen comments*

Chair Aspen thanked the Commissioners for their presence and a very productive Work Session Wednesday evening.

*Meeting adjourned at 12:54 p.m.*

#### **ADJOURNMENT**

Chair Aspen adjourned the meeting at 12:54 p.m.

## NEW INSTRUCTIONAL PROGRAM PROPOSAL

**Institution:** University of Nebraska Medical Center (UNMC)

**Program:** Medical Physiology

**Award:** Master of Science (MS)

**Mode of Delivery:** Online (synchronous and asynchronous)

**Institution's Existing Degree(s) in Same or Similar Discipline:** PhD in Integrative Physiology and Molecular Medicine

**Proposal Received by Commission:** October 12, 2021

**Proposed Start Date:** Upon approval by the Commission

### Description

The proposed degree is designed to meet the needs of several prospective student populations, including: 1) students seeking community college teaching positions or adjunct teaching positions at a four-year institution in physiology; 2) students seeking to enhance their knowledge in physiology to improve their rank and earning potential in physiology-based, basic science and/or clinical research laboratories; and 3) students seeking to broaden and deepen their physiology knowledge base in their pursuit of admission to a medical school, health professional school, or PhD physiology program. Admission to the program would require a bachelor's degree with the recommendation that students have completed four specific science classes and calculus.

The 30-credit hour curriculum would include existing coursework focused on medical physiology, cell physiology, cardiovascular pathophysiology, advanced topics in physiology, and pharmacology for the physiologist. Two courses in health professions education would be required as well as biostatistics and scientific writing. The program would be delivered both synchronously and asynchronously and could be completed in two academic semesters (nine months). Part-time students could take up to five years to finish the degree. There is no thesis required but students would need to pass a two-part comprehensive exam near the end of the second semester with a minimum score of 70% on both parts. The second part of the exam is tailored to either students intending to teach or those hoping to become a researcher or enter a professional school. All courses would be applicable and transferable to a physiology PhD program, particularly the Integrative Physiology and Molecular Medicine.

The program would be reviewed annually and revised as needed to meet student needs and reflect new developments in the discipline.

Consistent with Institutional Role and Mission?      √   YES                             NO

Consistent with Statewide Comprehensive Plan?      √   YES                             NO

## REVIEW CRITERIA

### A. Need for the Program

High-----Low
<u>  √  </u>

UNMC asserts that there is an increasing need for physiology educators at the undergraduate level. The U.S. Bureau of Labor Statistics reported that jobs in education and health services in Nebraska rose from 155,300

in January 2021 to an estimated 157,500 in March 2021. A market analysis conducted by the University of Nebraska Online determined that the occupational outlook for numerous education and health service positions in Nebraska would increase approximately 7.5% to 10% from 2018 to 2028. UNMC also reported that community colleges and undergraduate institutions in Nebraska often reach out to the Department of Cellular and Integrative Physiology to ascertain the possibility of university faculty teaching physiology at their institution. Most often the faculty cannot spare the time and graduate students usually don't meet the requirement of having at least a master's degree to teach at the undergraduate level. Letters of support from Wayne State College and Metropolitan Community College reinforced this position.

The proposal states that every year the Department denies admission to five to ten applicants for the Integrative Physiology and Molecular Medicine doctoral program because of concerns over their previous academic performance. A master's in physiology would be the ideal way to demonstrate their ability. However, there are no graduate programs in physiology in Nebraska and few in the country (see Section C). Likewise, individuals wanting to work in a biomedical research lab can improve their competitiveness for positions with the master's degree. Two letters of support came from current research technologists who expressed interest in the program.

In broader circumstances, for students seeking admission to a medical or health professional school earning a short-term master's degree in a field related to their area of interest, such as physiology, would improve their chances of admission. Two letters of support came from individuals who believe that a program similar to that proposed would have more quickly and better prepared them for medical school courses.

Additional letters of support were provided by the director of the MS in Health Sciences at UNK and the director of the MS in Medical Anatomy at UNMC.

The labor statistics provided are for the broad category of education and health services. Many of those positions would not require education in physiology nor would some applicants for those positions be interested in a degree in a narrow discipline. Other evidence is anecdotal.

### B. Demand for the Program

High-----Low
<u>  √  </u>

Based on the information discussed in Section A, UNMC predicted the following enrollments: five students in year one, 10 in year two, 15 in year three, 25 in year four, and 40 in year five.

In addition to Section A information, an indicator of demand is the number of applicants to the MS in Medical Anatomy program. The program is similar to the proposed MS in Medical Physiology in that it is one year long and most enrollments are from students attempting to improve their chances of being admitted to a medical or health professional school. Medical Anatomy receives 60 to 80 applications per year but can accept only 16 to 18 students. It is also offered face-to-face only, making the proposed online Medical Physiology program more attractive to a wider audience. And with so few programs available nationally, the online delivery of the proposed program provides opportunity for rural residents in the state and students in other locations within the U.S.

While there is a need for physiology educators and the proposed curriculum includes two education courses, there is no evidence that current instructors in related fields would enroll in a 30-credit hour program. However, given the history of applications to the Medical Anatomy program the number of enrollees should be sufficient to support a viable program.

### C. Avoidance of Unnecessary Duplication

High-----Low				
√				

A Master of Science in Medical Physiology is not currently offered in Nebraska. UNMC has a one-year, on-campus MS in Medical Anatomy that attracts many students attempting admission to medical school. The

Commission recently approved an online MS in Health Sciences at UNK. Creighton has a similar program but it is not online. There is an MS program in Medical Physiology at the University of Illinois-Chicago and Case Western Reserve University (offered online). A program at the University of Southern California takes two years to complete, and the University of Wisconsin offers a program that takes one year but is on-ground and part of the medical school curriculum. The University of Florida has a one-year, online MS in Physiology and Pharmacology. Other institutions have programs featuring physiology but coupled with another field, e.g., kinesiology or biophysics.

### D. Resources: Faculty/Staff

High-----Low				
√				

The Department of Cellular and Integrative Physiology has 12 full-time graduate faculty, three instructors, and 3.5 FTE administrative staff. The program would be led by a director who is an associate professor in the

Department. A program committee would be created consisting of the director and four graduate faculty. The program would also have a Program Advisory Committee whose members would include directors of similar programs at peer institutions and potential employers of graduates.

The proposal lists eight faculty members who are involved in developing the existing courses into an online format. One additional Assistant Professor would be needed for implementation and maintenance of the program as well as a full-time support staff person. Both are included in the budget. PhD students in the Integrative Physiology and Molecular Medicine doctoral program could serve as teaching assistants.

### E. Resources: Physical Facilities/Equipment

High-----Low				
√				

The Department of Cellular and Integrative Physiology is located on the fifth and sixth floors of the Durham Research Center. Faculty have individual offices, and there are two conference rooms recently equipped

with audio/visual technology. If needed, faculty could utilize these rooms to teach their synchronous courses. Asynchronous courses would be delivered using the faculty member's laptop, tablet, or office computer equipped with two-way video conferencing and streaming internet video.

#### F. Resources: Library/Information Access

High-----Low
√

UNMC reports that in fall 2020 an extensive renovation of the Leon S. McGoogan Health Science Library was completed. The renovated space includes individual study rooms, small conference rooms, and a writing and e-learning center. The library provides access to over 27,000 journals, more than 40 databases, and 100,000 books and e-books. Remote students can access the electronic services offered by the library. In addition, the UNMC Chancellor's Office provides all students with the ability to receive up to 50 free digitally delivered or interlibrary loaned books and/or journal articles each year.

#### Committee Recommendation: Approve the Master of Science degree in Medical Physiology at the University of Nebraska Medical Center

First Regular Program Review: Due June 30, 2027

## NEW INSTRUCTIONAL PROGRAM PROPOSAL

<b>Institution:</b>	<b>University of Nebraska Medical Center (UNMC)</b>
<b>Program:</b>	<b>Perioperative Nursing</b>
<b>Award:</b>	<b>Undergraduate Certificate</b>
<b>Mode of Delivery:</b>	<b>Hybrid (online didactic instruction, in-person labs, and supervised clinicals)</b>
<b>Institution's Existing Degree(s) in Same or Similar Discipline:</b>	<b>BSN, MSN, PhD, DNP, and Graduate Certificates in Nursing</b>
<b>Proposal Received by Commission:</b>	<b>October 12, 2021</b>
<b>Proposed Start Date:</b>	<b>Upon approval by the Commission; possibly January 2022 (at the request of clinical partners) with subsequent transition to summers only</b>

### Description

The proposed certificate is designed to prepare registered nurses to function at a staff nurse level in perioperative nursing. Perioperative nursing includes patient pre-operative care, time in the operating room, and patient post-operative and recovery time. Admission to the program would require a student to have an unencumbered RN license in Nebraska (or have newly graduated from a pre-licensure program) and a minimum GPA of 2.0 from their pre-licensure program. Newly graduated students would be required to achieve licensure prior to completion of the program.

The 14-credit hour curriculum could be completed in a 15-week semester. The six new courses (all 400-level) would incorporate 225 hours of lab, simulation, and supervised clinical experience. The didactic portion of the program would be provided utilizing both synchronous and asynchronous delivery, while labs and simulations would be in-person. Clinical experiences would take place in hospitals within the student's geographic location.

## REVIEW CRITERIA

### A. Need for the Program

High-----Low
✓

The UNMC College of Nursing holds community advisory committee meetings at all five nursing locations in the state. Testifiers reported that, in addition to an overall nursing shortage, there is a shortage of nurses with a perioperative specialty. UNMC states that there are also many experienced nurses approaching retirement. The UNMC nursing partners report that recruiting is difficult because of the need to pay high salaries due to on-call requirements.

According to the proposal, much of the shortage can be attributed to the structure of most nursing pre-licensure programs where very limited, if any, instruction in perioperative nursing is offered. Hospitals must then train the nurses themselves, which is a long, expensive, and time-consuming undertaking, especially in acute care hospitals. Four sources were cited in support of these statements, including a 2019 article in the AORN Journal (Association of periOperative Nurses) and a 2018 blog titled “Growing perioperative nurse shortage puts medical facilities at risk.”

Two letters of support were provided. The Chief Nursing Officer for Nebraska Medicine stated the need for perioperative nurses at Nebraska Medicine but also across the state. The Vice President for Patient Care Services and Chief Nursing Officer at Bryan Medical Center reiterated the need, calling it critical, and noted the long on-boarding requirement (six months or more). The certificate would increase the number of nurses prepared in this specialty area and decrease the time for them to become adept within their individual surgical settings.

The proposal also noted that the program would allow hospitals to reduce the cost of on-the-job training, provide a structured program with enhanced learning experiences, and allow nurses who think they might be interested to have a better understanding of the specialty and thus improve retention.

The state of Nebraska has no licensure or certification requirement for a perioperative nurse. There is a certification, offered by the Competency and Credentialing Institute (CCI), that an individual can apply for. Requirements include having an RN license and two years of clinical experience. CCI provides study materials and a credentialing exam. The credential awarded is Certified Perioperative Nurse (CNOR).

There is clearly a need evidenced by UNMC’s clinical partners as well as the partners’ interest in initiating the program as soon as possible (see Section D).

## B. Demand for the Program

High-----Low				
		√		

UNMC anticipates offering the program every summer and enrolling 20 students at each offering. Documentation of demand is based heavily on the need reported by UNMC clinical partners and the availability of instructional resources. To determine demand by potential students, UNMC is conducting a survey of current UNMC nursing students. Of the 109 preliminary responses, 59 indicated a definite interest in perioperative nursing and 60 preferred a summer offering. There was no discussion of interest by nurses currently working in hospitals, but several partners indicated they would be willing to assist students with costs which could be an incentive to enrollment.

## C. Avoidance of Unnecessary Duplication

High-----Low				
√				

There are no undergraduate certificates in perioperative nursing in Nebraska. The proposal states that the AORN offers a single course that can be accessed by hospitals. Internet searches by UNMC could only identify anesthesia advanced practice RN programs.

Commission staff identified several short certificate programs (three to six credits) at community colleges in the United States. A perioperative certificate for RNs is available at some institutions in Canada.

## D. Resources: Faculty/Staff

High-----Low				
	√			

UNMC reports that there are two faculty members qualified to teach in the program. An additional 1.5 FTE instructor and .5 FTE assistant professor would be needed. These positions are included in the budget as well as a .15 FTE student services advisor and a .25 FTE learning resource center technician to support the simulation lab.

The proposal notes that UNMC is working with its clinical partners to ensure quality precepted clinical experiences. The partners are supportive of the program, so much so that they are encouraging UNMC to initiate it in spring 2022 if possible.

### E. Resources: Physical Facilities/Equipment

High-----Low
<input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

The program would utilize both synchronous and asynchronous delivery for the didactic portion of the curriculum with in-person labs and simulations. The College of Nursing has five locations in the state: Kearney, Lincoln, Norfolk, Omaha, and Scottsbluff. All five locations could offer the distance delivery courses via Zoom. In-person activities could take place in Omaha or Lincoln—the two locations with operating room (OR) simulation rooms. If demand increases, UNMC would invest in additional OR simulation sites, starting with Kearney.

Clinical hours would take place in hospitals within the students' geographic locale with faculty visits in person or by Zoom with the students and the preceptor at the site.

### F. Resources: Library/Information Access

Acceptable
<input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

The proposal asserts that no new resources would be needed. With multiple degrees in nursing and existing library technology for remote access to holdings, there should be sufficient resources for program delivery.

### G. Budget

#### PROJECTED COSTS AND ANTICIPATED REVENUES FOR THE FIRST FIVE YEARS As reported by UNMC

PROJECTED COSTS		ANTICIPATED REVENUES	
Faculty and Staff	\$470,782	Existing Funds	
General Operating <sup>1</sup>	\$23,808	New State Funds	
Equipment <sup>2</sup>	\$42,250	New Local Funds	
Other <sup>3</sup>	\$10,000	Tuition and Fees <sup>4</sup>	\$546,840
Five-Year TOTAL	\$546,840	Five-Year TOTAL	\$546,840

<sup>1</sup> Includes simulation lab supplies, communications for distance education delivery, and equipment depreciation, maintenance, and repair

<sup>2</sup> Simulation lab equipment

<sup>3</sup> Faculty recruitment, program marketing, student recruitment costs

<sup>4</sup> Based on 20 students taking 14 credit hours per year at \$378 per credit hour resident tuition in years one and two; \$388 tuition in year three; \$399 in year four; and \$410 in year five. No fees would be assessed.

**Committee Comment:** The need for the program is clearly documented by UNMC clinical partners. The evidence of demand for the program by current nursing students is preliminary but promising. The demand by employed nurses isn't apparent, but the employer need serves as an indicator of the likely viability of the proposed program.

**Summary of UNO's 2021 In-Depth Review**

- The program is an integral part of the General Education curriculum.
- The program has engaged in community outreach and support for students from underserved populations.
- In 2017 the program began transitioning from a BA degree to a BS degree.
- A few students select Black Studies as a second major. Many students select it as a minor with enrollments in the minor between fall 2015 and fall 2020 ranging from a low of 18 to a high of 40.
- From 2015 to 2019 total enrollments in the BA, BS, BMS, and second major combined averaged 12.8, with a low of eight in 2015 and a high of 17 in 2017. The estimated enrollment for fall 2020 was 19.
- Following a program review in 2019-20 the program began implementing the resulting recommendations. There are four points in this action plan.
  - Clarify the process for a double major
  - Clearly identify the four-year degree pathways
  - Connect with the new Interdisciplinary Studies concentration in Exploratory Studies
  - Review and revise the Introduction to Black Studies course to better recruit and support majors.
- The faculty are also working with faculty in the College of Arts and Sciences interdisciplinary programs and sociology and anthropology to develop an alternative structure for offering interdisciplinary degrees.
- The Board of Regents approved continuation of the program on June 25, 2021. The program will provide annual updates for the College of Arts and Sciences and the Board of Regents on the action steps, retention, and completion.

**Committee Comment:** The Commission has a definition of an interdisciplinary program for purposes of program review. If a program meets one of two options, it is not required to meet the Commission's performance standards. The program can be an individualized, custom-designed program for a single student, or the program has an identified curriculum focused on a specific area of study, draws courses from two or more departments, and has two or less courses of its own. Black Studies has an identified

curriculum and numerous courses of its own, including Introduction to Black Studies, Africana Worldviews, Black American Culture, and Special Topics in Black Studies. It also has over seven FTE faculty. Consequently, it does not meet either definition for an interdisciplinary program.

The Department of Black Studies was established in 1971 with the first Commission review more than 25 years later. The following points should be considered in evaluating the program.

- Since the second Commission review in 2006, the program has consistently awarded an average of approximately two baccalaureate degrees each year. In the in-depth review, the average for 2015-2020 was 2.8.
- The number of graduates in 2019-20 was five—tied with 2000-01 for the largest number graduated since the first Commission review.
- The SCH and SCH/FTE have steadily declined since the first review in 1999, but continue to exceed the minimum performance standards.
- More students were enrolled in degree programs and minors in fall 2019 (55 students) than in any of the previous four years. Enrollment in fall 2020 was estimated to be 50.
- While the program does not meet the CCPE minimum performance standard of an average of seven degrees awarded per year, the number of students intending to earn a minor is quite large. This suggests that the program is well-suited to serve as a minor or second-major (as the action plan is targeting).
- Not all of the strategies in the action plan have been fully implemented and some that have been have not had time to produce results.

***Committee Recommendation:*** Continue the Black Studies program at UNO with a report on the Board of Regents' monitoring due December 13, 2024.

[The next regular program review is due June 30, 2027.]

**Summary of UNK's 2020 Report**

- The program was rebranded to Product and Design Comprehensive in 2016.
- The number of graduates estimated for 2021 is 13. That would make the five-year average 8.8.
- The number of majors has increased from 45 in 2014-15 to 59 in 2019-20.
- Enrollments for fall 2021 increased, likely contributable to face-to-face meetings with prospective students and their parents.
- The program continues to collaborate with construction management programs.
- High school visits were put on hold during Covid, but will resume when appropriate.
- Based on an articulation agreement with Metropolitan Community College, UNK plans to explore possible agreements with community colleges in Kansas and Colorado.
- The program overhauled its web page, produced a spring show, and provided research opportunities for students.
- Despite the pandemic, all students completed an internship.
- A reaccreditation visit is scheduled for fall 2021 by the Council for Interior Design Accreditation.
- On June 25, 2021, the Board of Regents approved continuing the BS in Interior Design Comprehensive.

**Committee Comment:** UNK has implemented strategies for recruitment and retention. The average number of graduates now exceeds Commission performance standards.

**Committee Recommendation:** Continue the BS in Interior Design at the University of Nebraska at Kearney

**Summary of MPCC's 2021 In-Depth Review**

- The program has seen an increase in enrollments with 13 students enrolled in fall 2020 and 17 enrolled in fall 2021.
- Activities that have taken place since the 2020 program review include:
  - Worked with North Platte Public Schools to market and promote the program resulting in three high school students enrolling in fall 2020 and two of them continuing for fall 2021.
  - Focused on working with additional high schools
  - Hosted on-campus tours for high school students
  - Provided additional scholarships.
- Moving forward, the following action steps will be taken:
  - Participate in Fridays at the College that allows high school students to spend a morning on campus exploring career and technical programs (underway fall 2021)
  - Promote dual credit opportunities when working with high schools
  - Work with local home builders to establish relationships and potential internships
  - Find additional scholarship money
  - Look at potential additional coursework to make the program more attractive to students
  - Have former students and faculty travel with recruiters
  - Invite more high schools to participate in hands-on activities
- The city of North Platte is positioned to see a housing boom in the next three to five years. MPCC has been in discussion with city administrators and local businesses regarding the role the program might play in providing employees in a field that is already short staffed.
- The college recommends continuing the program.

**Staff Comment:** In the 2013 review (when the program averaged 10.2 graduates) the college noted that the program had a yearly average of 11 students in the first year who continue on to the second

year. Based on those figures, the enrolment of 13 and 17 students in the last two fall semesters bodes well for the program. Strategies have been identified and partially implemented; some have not had time to show results.

***Staff Recommendation:* Continue the Building Construction Technology program at Mid-Plains Community College.**

## **Access College Early (ACE) Scholarship Program**

Authorized by the Nebraska Legislature in 2007, the Access College Early (ACE) Scholarship Program pays tuition and mandatory fees for qualified, low-income high school students to enroll in college courses from Nebraska colleges or universities, either through dual enrollment or early enrollment agreements with these institutions. High school students may apply for funding under this program by completing the ACE Student Application, which is reviewed by the Coordinating Commission for award consideration.

To qualify for the scholarship, the student or student's family must be approved to participate in one of the federal need-based government programs listed below, have experienced an extreme hardship that affects family income, or be participating in a designated Career Education program as established by the Nebraska Department of Education.

- Free or Reduced Price Lunch Program
- Supplemental Security Income
- Temporary Assistance to Needy Families (TANF)
- Supplemental Nutrition Assistance Program (SNAP)
- Special Supplemental Assistance Program (WIC)

The objective of the ACE program is to encourage well-prepared high school students from low-income families to enroll in college courses. High school students who are awarded an ACE scholarship to complete college courses while in high school can decrease their time to graduation and consequently the cost of a degree. However, students must pay to take advantage of these college course opportunities to receive college credit that can jumpstart their college careers. For students who are economically disadvantaged, the financial constraints are great.

Research shows that high school students who take college courses while in high school remain in school and graduate at higher rates, enroll in college at increased rates, and return for their college sophomore years at higher rates. In Nebraska, public high school ACE recipients are 32 percentage points more likely to go on to college than other public high school students from low-income families.

As can be seen from the charts starting on page 7, public high school students who are ACE scholarship recipients continue on to college at a much greater rate than public high school students from low-income families that do not receive ACE scholarships. In fact, public high school ACE scholarship recipients continue on to college at a slightly higher rate than public high school students from non-low-income families.

## Distribution of the 2020-21 Access College Early Scholarship

The Access College Early (ACE) Scholarship pays the tuition and mandatory fees of eligible Nebraska high school students taking dual-enrollment and early-admit college courses at participating Nebraska colleges and universities<sup>1</sup>. For 2020-21 the ACE Scholarship program was funded with \$1,100,000 General funds appropriated by the Legislature.

Nebraska colleges and universities enrolled 2,433 low-income, Nebraska high school students from 231 high schools who received 4,518 ACE Scholarships in 2020-21. The total amount awarded was \$989,327.32, with the average award per scholarship equaling \$218.97.

The ACE Scholarship allowed these high school students from low-income families to enroll in 15,472 credit hours of college course work. Seventy-six percent of the grades received by these students were a B or better. (See page 10)

### Total ACE Scholarships Funding & Awarded

<sup>1</sup> The number of scholarships awarded to a student is limited each year based on available funding and an estimated number of students who will be applying. For 2020-21 students were limited to three scholarships for the year.

## Eligibility of ACE Recipients

## Gender of ACE Scholarship Recipients

## Race of ACE Scholarship Recipients

## College Continuation Rates of ACE Scholarship Recipients

Since 2009, the Coordinating Commission has conducted research to determine how many of the high school seniors who receive ACE scholarships continue on to college compared to other low-income and non-low-income graduates of Nebraska's public high schools.

For this research, a college continuation rate is defined as the percentage of public high school graduates who were enrolled in college within one year of their high school graduation. For example, for the public high school seniors who received ACE scholarships during 2019-20, the college continuation rate is the percentage of these students who were enrolled in college any time between June 1, 2020, and May 31, 2021.

Using student records and summary reports from the Nebraska Department of Education (NDE) and enrollment records from the National Student Clearinghouse (NSC), the Commission calculates the college continuation rates by gender for the public high school seniors who were ACE scholarship recipients.

The Commission then compares the college continuation rates for the seniors who received ACE scholarships while attending public high schools to the college continuation rates for other low-income and non-low-income graduates of Nebraska's public high schools.

Low-income students are defined as students who are approved to receive free or reduced-price school lunches.

Non-low-income students are students who are not approved for free or reduced-price school lunches.<sup>1</sup>

Since the Commission relies on college enrollment records from the NSC, students who continue to college at non-NSC-reporting institutions are classified as not continuing on to college. As a result, college continuation rates reported here are underreported to some degree.

Students who were homeschooled or attended nonpublic (private) high schools are not included in this phase of the research because the NDE does not have sufficient records for the Commission to compute college continuation rates for nonpublic high school students.

<sup>1</sup> Non-low-income students for this study include at least some students who live in low-income households but who did not apply for free or reduced-price school lunches. Since participation in the free or reduced-price school lunch program is the only indicant of household income in the student records maintained by the Nebraska Department of Education, low-income students in the non-low-income category cannot be identified and excluded for the purposes of analysis.

# NEBRASKA OPPORTUNITY GRANT PROGRAM

The Nebraska Opportunity Grant (NOG) program provides financial aid to students who are residents of Nebraska; have not earned a bachelor's, graduate, or professional degree; have high financial need (defined as having an expected family contribution equal to or less than 110% of the maximum family contribution that qualifies students for a federal Pell Grant); and who are attending eligible Nebraska colleges and universities to earn a degree or credential. The NOG program uses information from the federal Free Application for Federal Student Aid (FAFSA) as the basis for determining eligibility; there is no separate application.

NOG is the State of Nebraska's only need-based financial aid program for postsecondary students and is funded through General fund appropriations and lottery funds. As of the 2018-19 academic year, when analyzing national need-based undergraduate grant dollars per undergraduate enrollment, Nebraska ranked 34<sup>th</sup> in the country, one spot higher than our ranking from 2017-18.

The NOG program is a decentralized financial aid program. The commission allocates state funding to participating institutions based on a statutory formula that takes into account the proportion of all eligible students attending each institution and their tuition and fees (capped at tuition and fees at the University of Nebraska Lincoln) and verifies student eligibility but does not determine individual student award amounts or dictate how many eligible students receive NOG grants. Participating institutions award NOG grants to eligible students subject to eligibility criteria, maximum award limits, and available allocations.

For the 2020-21 NOG program award year:

- \$21,087,141 was awarded
- 13,109 students received a Nebraska Opportunity Grant
- \$1,608.60 was the average grant award

Pages 3-6 include charts showing the number of Nebraska students who received a federal Pell grant and the unmet financial need of these students as reported by the institutions. The US Department of Education defines financial need as the difference between how much college costs and how much a student and the student's family can pay towards those costs. The difference between financial need and the amount of financial aid offered by the college to the student to cover the financial need is considered unmet financial need. Students must cover their unmet need from either private loans or out-of-pocket funds.

The remainder of the report reflects various details specifically related to the NOG program, broken out by sector. Of particular interest is the table on page 13 showing the percentage of eligible students that received a NOG award by sector. The table demonstrates both that the NOG program is an important part of the overall financial aid strategy of postsecondary institutions and that many eligible students are not served by the NOG program due to lack of funding.

## NOG Yearly Process

Each year the Commission allocates NOG funding that has been appropriated by the Legislature to participating institutions. In order to provide these institutions timely information, funding estimates are used until a final appropriation bill is approved in late spring. Allocations are calculated using the formula found in Neb. Rev. Stat. § 85-1912. Below are key events of the NOG process:

- Tentative allocation using estimated state General and lottery funds is sent out to institutions in January for the next academic year
- NOG applications to participate are sent to institutions and returned to the Commission in June
- Data from the applications, including the calculation of full-time-equivalent eligible students and tuition and fees charged, are used in the allocation formula
- Final lottery distribution received by the Commission in June
- Final allocation notice sent to institutions in July
- Institutions submit a list of recommended students for Commission approval
  - Must be done prior to disbursement to student
  - Send in multiple lists throughout the year
  - Funds sent at least twice a year based on approved list of students
  - Final submission must be submitted by May 31<sup>st</sup> of the academic year
- Commission performs audits of student eligibility at each participating institution every fall

The National Student Clearinghouse (NSC) is a not-for-profit organization that serves as a central repository of postsecondary student enrollment, degree, and diploma data voluntarily submitted by more than 3,700 colleges and universities. These institutions enroll an estimated 97.0% of the college students in the United States that attend Title IV, degree-granting institutions. In Nebraska, all institutions except three private career schools report to NSC.

The cumulative graduation rates tables include only first-time students that also received a NOG scholarship beginning in their first year. Graduation rates were calculated for the student's initial enrollment institution regardless of the type of institution of the subsequent graduation.

## Introduction

---

The Community College Gap Assistance program was established by the Nebraska Legislature in 2015 to address identified skilled workforce shortages and an identified affordability and workforce preparation “gap.” The program provides financial aid to low-income community college students enrolled in credit or non-credit programs of study that prepare them for jobs in high-need fields but are not eligible for Pell or state Nebraska Opportunity Grants, which serve only students enrolled in for-credit courses leading to certificates or degrees.

With the passage of LB 528 (2021), eligible institutions were expanded to include accredited, not-for-profit, two-year postsecondary institutions with a physical presence in Nebraska. References to community colleges in this report include these institutions.

### STUDENT ELIGIBILITY

Pursuant to Neb. Rev. Stat. § 85-2003, to be eligible for community college Gap Assistance, an applicant:

- a) Shall have a family income which is at or below two hundred fifty percent of the U.S. Department of Health and Human Services income poverty guidelines; and
- b) Shall be a resident of Nebraska as provided in Neb. Rev. Stat. § 85-502.

Applicants must complete an initial assessment, administered by their community colleges in accordance with Neb. Rev. Stat. § 85-2007, to determine the applicants’ readiness to complete a Gap Assistance program of study. The community colleges shall make the determination of readiness based on:

- a) The ability to be accepted into and complete a Gap program of study;
- b) The ability to be accepted into and complete a postsecondary certificate, diploma, or degree program for credit;
- c) The ability to obtain full-time employment; and
- d) The ability to maintain full-time employment over time.

### ELIGIBLE STUDENT COSTS

Pursuant to Neb. Rev. Stat. § 85-2006 eligible student costs include, but are not limited to:

- a) Tuition;
- b) Direct training costs;
- c) Required books and equipment; and
- d) Fees, including, but not limited to, fees for industry testing services and background check services.

### ELIGIBLE COMMUNITY COLLEGE COSTS

Pursuant to Neb. Rev. Stat. § 85-2009 (amended by LB 528 (2021)), community colleges may use up to ten (10) percent of their allocation to assist in defraying the costs of direct staff support services, including, but not limited to, marketing, outreach, applications, interviews, and assessments.

### ELIGIBLE PROGRAMS

A Gap Assistance program of study means a program offered by a community college that (a) either (i) is not offered for credit and has a duration of not less than sixteen contact hours in length, or (ii) is offered for credit but is of insufficient clock, semester, or quarter hours to be eligible for Federal Pell Grants, and (b) does any of the following:

- Offers a state, national, or locally recognized certificate;
- Offers preparation for a professional examination or licensure;
- Provides endorsement for an existing credential or license;
- Represents recognized skill standards defined by an industrial sector; or
- Offers similar credential or training.

A Gap Assistance program of study offered by a community college must also be aligned with training programs with stackable credentials that lead to a program awarding either college credit, an associate's degree, a diploma, or a certificate in an in-demand occupation. The aligned training program must be for credit.

In-demand occupations must be in one of the following areas:

- Financial services;
- Transportation, warehousing, and distribution logistics;
- Precision metals manufacturing;
- Biosciences;
- Renewable energy;
- Agriculture and food processing;
- Business management and administrative services;
- Software and computer services;
- Research, development, and engineering services;
- Health services;
- Hospitality and tourism;
- Construction;
- Education (committee designated July 2020); and
- Any other industry designated as an in-demand occupation by the committee.

### GAP ASSISTANCE FUNDING

As required by Neb. Rev. Stat. § 9-812[5][c], funding for the Gap Assistance program is provided through a quarterly transfer of 9% from the Education Improvement fund, which receives 44.5% of lottery proceeds. The first transfer to the Gap Assistance program took place in October 2016, with the first transfer to the community colleges occurring shortly after.

### GAP ASSISTANCE REPORTING

The Nebraska Community College Student Performance and Occupational Education Grant Committee provides direction for the Gap Assistance program, and the Coordinating Commission for Postsecondary Education administers the program. At the direction of the committee, community colleges are required to report basic demographic, program, and employment data for each participant to gauge the effectiveness of the Gap Assistance program.

## Summary

The fifth year of the Gap Assistance program shows an increase in both applications and participants accepted into the program likely as a result of Covid-19. Metropolitan Community College led the way with 49% of the total number of approved participants in 2020-21 followed by Southeast Community College with 19%.

As of July 28, 2021, there were 340 approved programs in the 13 in-demand occupational areas eligible for Gap Assistance funding [See Appendix A]. Health services and transportation, warehousing, and distribution logistics were the most utilized programs in FY2020-21 followed by business management and administrative services programs. [See Table 5 for FY2020-21 figures and Table 13 for cumulative figures.]

Of the 439 approved participants of the Gap Assistance program during FY2020-21, 170 (38.7%) were male and 269 (61.3%) were female compared to FY2018-19 when 58.8% were male and 41.2% were female. Males and females 31-35 years of age took the greatest advantage of the program during its fifth year. [See Table 7 for FY2019-20 figures and Table 15 for cumulative figures.]

The top in-demand fields of male participants during FY2020-21 were transportation, warehousing, and distribution logistics. The top in-demand field for female participants for the fifth year in a row was health services. [See Table 8 for FY2019-20 figures and Table 16 for cumulative figures.]

Of the approximately \$921,500 in direct costs incurred by the community colleges during FY2020-21, 79% was used for tuition, 19% was used for direct training costs, 2% was used for books and equipment, and <1% was used for fees. This compares with the first year of the program when \$175,377 of costs were incurred and 59% was used for tuition, 30% was used for direct training costs, 10% was used for books and equipment, and 1% was used for fees.

# Comprehensive Statewide Plan for Postsecondary Education

## *Changes Made and Important Notes: 2021 Measuring Accomplishments Packet*

### Overall Changes:

- N/A

### National Comparisons:

- Educational attainment by race/ethnicity and age (2015-2019): Added detail for more race/ethnic groups.
- Percentage of ACT-tested high school graduates who met or exceeded all four college readiness benchmarks (2021): NDE did not require ACT testing for 2021 graduates. An estimated 86% of Nebraska's 2021 high school graduates took the ACT test. Therefore, states were only ranked if their estimated percent tested was 70% or higher.

### Peer Comparisons:

- NCTA's peer group listing name changes: Lake Area Technical Institute (LATI) is now Lake Area Technical College (LATC) and Mitchell Technical Institute (MTI) is now Mitchell Technical College (MTC).
- Remedial student course taking and success (credential seeking cohort, 2013), Persistence/attainment outcomes by end of year two (credential seeking cohort, 2017), and Persistence/attainment outcomes by end of year six (credential seeking cohort, 2013): Data for 2014 and 2018 cohorts will not be available until early 2022. Therefore, this data is a repeat of what was reported in the 2020 report.

### Non-Comparative Measures:

- N/A

### Data Dictionary:

- Removed the section, "Measures to be included in forthcoming Measuring Accomplishments." We will make additions to future reports when/if the data are made available to CCPE.

# Comprehensive Statewide Plan for Postsecondary Education 2021 Measuring Accomplishments

Nebraska is committed to measuring its progress toward achieving the major statewide goals through national comparisons and institutional peer comparisons. It is the aim of the *Comprehensive Plan* that, when rank order is appropriate, Nebraska will rank among the ten best states in national comparisons, and individual public institutions will rank among the five best institutions in peer comparisons. For national comparisons, ranking in the top 10 is noted by a green circle (●), ranking 11 to 25 is noted by a yellow diamond (◆), and ranking 26 to 50 is noted by a red square (■). For peer comparisons, ranking in the top five is noted by a green circle (●) while ranking in the bottom six is noted by an orange diamond (◆).

## National Comparisons

### Educational Attainment (2015-2019)

### High School Graduation Rate, Preparation for College, and College Enrollment

	Nebraska	Rank
Public High School Graduation Rate (2018-2019)	88%	13 ◆
Percentage of ACT-Tested High School Graduates who Met or Exceeded All Four College Readiness Benchmarks (2021)	23%	4 ●
Percentage of High School Graduates Going Directly to College (Fall 2018)	63%	25 ◆
Percentage of Population 25-49 Years without an Associate's Degree or Higher Enrolled in College (2015-2019)	5%	28 ■

### College Completion Rates

	Nebraska	Rank
Four-Year Completion Rate for First-Time, Full-Time Baccalaureate-Seeking Students at Public Four-Year Institutions who Completed a Bachelor's Degree at their First Campus (2014 Cohort)	35%	33 ■
Six-Year Completion Rate for First-Time Students who Started at Public Four-Year Institutions and Completed a Credential Anywhere (2014 Cohort)	70%	17 ◆
Six-Year Completion Rate for First-Time Students who Started at Public Two-Year Institutions and Completed a Credential Anywhere (2014 Cohort)	42%	18 ◆

### Funding and Affordability

Data sources: U.S. Census Bureau (educational attainment, percent of population without an associate's degree enrolled in college); U.S. Department of Education (public high school graduation rate); ACT (college readiness benchmarks); Western Interstate Commission for Higher Education (high school graduates going directly to college); Integrated Postsecondary Education Data System (four-year completion rate); National Student Clearinghouse (six-year completion rates); State Higher Education Executive Officers Association (state and local appropriations per FTE student, net tuition revenue per FTE student); National Association of State Student Grant and Aid Programs (state need-based grant aid per FTE student); Midwestern Higher Education Compact (family income needed to pay net price for full-time enrollment). Metrics use the most recently available data, and cohort years differ depending on the data source. Note. Median federal loan debt data for NCTA includes information for UNL and NCTA graduates combined. Therefore, the available information is not representative of the debt incurred by NCTA's graduates and is not included in this report. Additionally, median federal loan debt data is not included for Ohio State University Agricultural Technical Institute (OSAT) as the data reported includes information for four Ohio State University institutions/campuses combined. Therefore, the available information is not representative of the debt incurred by OSAT's graduates and is not included in this report.

Data sources: Integrated Postsecondary Education Data System (undergraduate enrollment data, 150% graduation rates, graduation status, state and local appropriations per FTE student, net tuition and fees per FTE student, education and general spending per FTE student and per award, average net price of attendance); U.S. Department of Education (percent of undergraduates with federal loans and median federal loan debt of graduates). Metrics use the most recently available data, and cohort years differ depending on the data source. PERCENTAGE OF POPULATION 25-49 YEARS WITHOUT AN ASSOCIATE'S DEGREE OR HIGHER ENROLLED IN COLLEGE			
Data source:	U.S. Census Bureau, American Community Survey 5-Year PUMS file		
Academic/cohort year:	2015-2019	Goal(s) measured:	Students 1, 2 State 2

Variables and calculations:	Age group derived from variable AGEF (age): 25-49 years old = $\geq 25$ and $\leq 49$		
	Educational attainment derived from variable SCHL (educational attainment): Without an associate's degree or higher = No schooling completed, Nursery school or preschool, Kindergarten, Grades 1-11, 12th grade - no diploma, Regular high school diploma, GED or alternative credential, Some college but less than one year, One or more years of college credit-no degree		
	Enrollment in college derived from variable SCH (school enrollment in last three months): Enrolled in college = Yes (public school or public college, or Yes (private school, private college, or home school)		
	[Number of persons age 25-49 years without an associate's degree or higher that were enrolled in college] / [Number of persons age 25-49 years without an associate's degree or higher]

<b>Notes:</b>	<ul style="list-style-type: none"><li>• Four-year graduation rates are only shown for four-year campuses.</li><li>• Graduation rates are only reported for degree/certificate-seeking students who enrolled as first-time full-time freshmen.</li><li>• The University of Nebraska Medical Center does not enroll first-time freshmen; therefore, graduation rates are not available.</li></ul>		

## GRADUATION STATUS AT SIX YEARS

<b>Data source:</b>	IPEDS Outcome Measures Survey (2019-20)		
<b>Academic/cohort year:</b>	2012-2013 cohort: status at six years (August 31, 2018)	<b>Goal(s) measured:</b>	Students 1, 2, 3 Institutions 1
<b>Variables and calculations:</b>	Percent of completers within six years = [Number of adjusted cohort receiving an award at 6 years] / [Adjusted cohort at 6 years]		
<b>Notes:</b>	<ul style="list-style-type: none"> <li>Graduation and enrollment status information are only reported for degree/certificate-seeking students.</li> <li>The University of Nebraska Medical Center does not enroll first-time freshmen; therefore, graduation and enrollment status information is not available for first-time students.</li> </ul>		

## STATE AND LOCAL APPROPRIATIONS PER FTE STUDENT

<b>Data source:</b>	IPEDS Finance Survey (2020-21)		
<b>Academic/cohort year:</b>	2019-2020 academic year	<b>Goal(s) measured:</b>	Institutions 1, 2
<b>Variables and calculations:</b>	<p>State and local appropriations = [State appropriations] + [Local appropriations, education district taxes, and similar support]</p> <p>FTE = full-time equivalent = [Estimated FTE undergraduate enrollment] + [Estimated FTE graduate enrollment] + [Reported FTE doctors professional practice]</p> <p>State and local appropriations per FTE student = [State and local appropriations] / [FTE]</p>

## EDUCATION AND GENERAL SPENDING PER FTE STUDENT AND PER AWARD

<b>Data source:</b>	IPEDS Finance Survey (2020-21)		
<b>Academic/cohort year:</b>	2019-2020 academic year	<b>Goal(s) measured:</b>	Institutions 1, 2
<b>Variables and calculations:</b>	<p>Education and general spending = [Instruction] + [Research] + [Public service] + [Academic support] + [Student services] + [Institutional support] + [Net scholarships and fellowship expenses]</p> <p><i>Note. O&amp;M is already included in these totals</i></p> <p>FTE = full-time equivalent = [Estimated FTE undergraduate enrollment] + [Estimated FTE graduate enrollment] + [Reported FTE doctors professional practice]</p> <p>Awards = All degrees and certificates classified as first major.</p> <p>Education and general spending per FTE student = [Education and general spending] / [FTE]</p> <p>Education and general spending per award = [Education and general spending] / [Awards]</p>		

Notes:	● Estimated FTE enrollments are calculated by IPEDS using 12-month enrollment data.		
AVERAGE NET PRICE OF ATTENDANCE FOR STUDENTS RECEIVING GRANT OR SCHOLARSHIP AID			
Data source:	IPEDS Student Financial Aid Survey (2020-21)		
Academic/cohort year:	2019-2020 academic year	Goal(s) measured:	Students 2 Institutions 1, 2
Variables and calculations:	[Average net price-students awarded grant or scholarship aid]		
Notes:	● Average net price is for full-time, first-time degree/certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded grant or scholarship aid from federal, state, or local governments, or the institution. ● The University of Nebraska Medical Center does not enroll first-time freshmen; therefore, average net price information is not available.		
AVERAGE NET PRICE OF ATTENDANCE FOR STUDENTS RECEIVING FEDERAL FINANCIAL AID FROM THE TWO LOWEST INCOME QUINTILES			
Data source:	IPEDS Student Financial Aid Survey (2020-21)		
Academic/cohort year:	2018-2019 academic year	Goal(s) measured:	Students 2 Institutions 1, 2
Variables and calculations:	Lowest quintile = [Average net price (income 0-30,000)-students awarded Title IV Federal financial aid]  Second lowest quintile = [Average net price (income 30,001-48,000)-students awarded Title IV Federal financial aid]		
Notes:	● Average net price is for full-time, first-time degree/certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded Title IV federal student aid. Title IV federal student aid includes federal grants or federal student loans. ● The University of Nebraska Medical Center does not enroll first-time freshmen; therefore, average net price information is not available.		
PERCENT OF UNDERGRADUATES WITH FEDERAL LOANS AND MEDIAN FEDERAL LOAN DEBT OF GRADUATES			
Data source:	U.S. Department of Education, College Scorecard Data		
Academic/cohort year:	2018-2019 academic year (percent with loans)  NSLDS FY2018 and FY2019 pooled cohorts (federal loan debt)	Goal(s) measured:	Students 2 Institutions 1, 2
Variables and calculations:	Percent of undergraduates with federal loans = [PCTFLOAN]  Median federal loan debt of graduates = [GRAD_DEBT_MDN]

## Non-Comparative Measures

### PERCENTAGE OF PUBLIC HIGH SCHOOL GRADUATES GOING DIRECTLY TO COLLEGE BY RACE/ETHNICITY, GENDER, AND INCOME

<b>Data source:</b>	High school graduate data from the Nebraska Department of Education (NDE). College enrollment data from the National Student Clearinghouse (NSC). Data prepared by Nebraska's Coordinating Commission for Postsecondary Education, presented via the <i>College Continuation Rate Dashboard</i> .		
<b>Academic/cohort year:</b> 2019-2020	<b>Goal(s) measured:</b>	Students 1 Partnerships 2	

Variables and calculations:	Asian/Pacific Islander = [Asian] + [Native Hawaiian or Other Pacific Islander]		
	Low-income students = students who are approved to receive free or reduced-price school lunches		
	Non-low-income students = students who are not approved to receive free or reduced-price school lunches		
	College continuation rate = [Number of (race/ethnicity) (gender) (income status) on time public high school graduates who continued on to college] / [Number of (race/ethnicity) (gender) (income status) on time public high school graduates]		
Notes:	<ul style="list-style-type: none"><li>• Data is only available for students who graduated on time (in four years or less) from Nebraska's public schools.</li><li>• Only graduates who continue onto college at NSC-reporting institutions are included. As a result, college continuation rates are underestimated to some degree.</li><li>• Results are filtered for students who continued on to college between June 1, 2019, and May 31, 2021.</li><li>• See page 53 of the <i>2021 Progress Report</i> for data on the 2018-2019 graduating class.
