Nebraska Opportunity Grant (NOG) AY 2022-23 Year-End Report

Mr. Morrow presented the report, commenting that every year the CCPE is appropriated general funds from the legislature for the Nebraska Opportunity Grant, and those funds are combined with the Nebraska Lottery Funds that we receive to award each year. Mr. Morrow noted that Nebraska ranked 31st in the country for need-based undergraduate grant dollars per undergraduate enrollment. In the 2021-22 award year, \$23,928,265 was awarded to 13,183 students with the average award being \$1,815.09. He gave an overview of the NOG awarding by source, sector, and family income over the past 10 years.

Community College GAP Assistance Program 2022-23 Annual Year-End Report

Mr. Morrow presented the Community College GAP Assistance Program report, noting this is the seventh year of the program showing an increase in both applications and participants. The program is designed to provide financial aid to low-income community college students enrolled in credit or non-credit programs that do not qualify for federal Pell grants, preparing them for jobs in high-need areas. Mr. Morrow discussed eligible programs, in-demand occupation areas,

funding, and required reporting by the community colleges. The report also lists all the programs of study at each of the community colleges.

Annual Report for Institutions Holding a Recurrent Authorization to Operate in Nebraska Reports Received by September 2023

Recurrent authorization to operate means approval by the Commission to operate a postsecondary institution in Nebraska until a renewal of the authorization is required. Most authorizations were approved for a five-year period with an annual reporting requirement. The following table is a summary of annual reports submitted in late summer 2023. Reports received later in 2023 will be summarized at a future Commission meeting. Dates in the left-hand column are the time frame during which enrollment and graduation data was collected. No action is required.

Access College Early (ACE) Scholarship Program

Authorized by the Nebraska Legislature in 2007, the Access College Early (ACE) Scholarship Program pays tuition and mandatory fees for qualified, low-income high school students to enroll in college courses from Nebraska colleges or universities, either through dual enrollment or early enrollment agreements with these institutions. High school students may apply for funding under this program by completing the ACE Student Application, which is reviewed by the Coordinating Commission for award consideration.

To qualify for the scholarship, the student or student's family must be approved to participate in one of the federal need-based government programs listed below, have experienced an extreme hardship that affects family income, or be participating in a designated Career Education program as established by the Nebraska Department of Education.

- Free or Reduced-Price Lunch Program
- Supplemental Security Income
- Temporary Assistance to Needy Families (TANF)
- Supplemental Nutrition Assistance Program (SNAP)
- Special Supplemental Assistance Program (WIC)

The objective of the ACE program is to encourage well-prepared high school students from low-income families to enroll in college courses. High school students who are awarded an ACE scholarship to complete college courses while in high school can decrease their time to graduation and consequently the cost of a degree. However, students must pay to take advantage of these college course opportunities to receive college credit that can jumpstart their college careers. For students who are economically disadvantaged, the financial constraints are great.

Research shows that high school students who take college courses while in high school remain in school and graduate at higher rates, enroll in college at increased rates, and return for their college sophomore years at higher rates. In Nebraska, public high school ACE recipients are 35.3 percentage points more likely to go on to college than other public high school students from low-income families.

As can be seen from the charts starting on page 7, public high school students who are ACE scholarship recipients continue on to college at a much greater rate than public high school students from low-income families that do not receive ACE scholarships. In fact, public high school ACE scholarship recipients continue on to college at a higher rate than public high school students from non-low-income families.

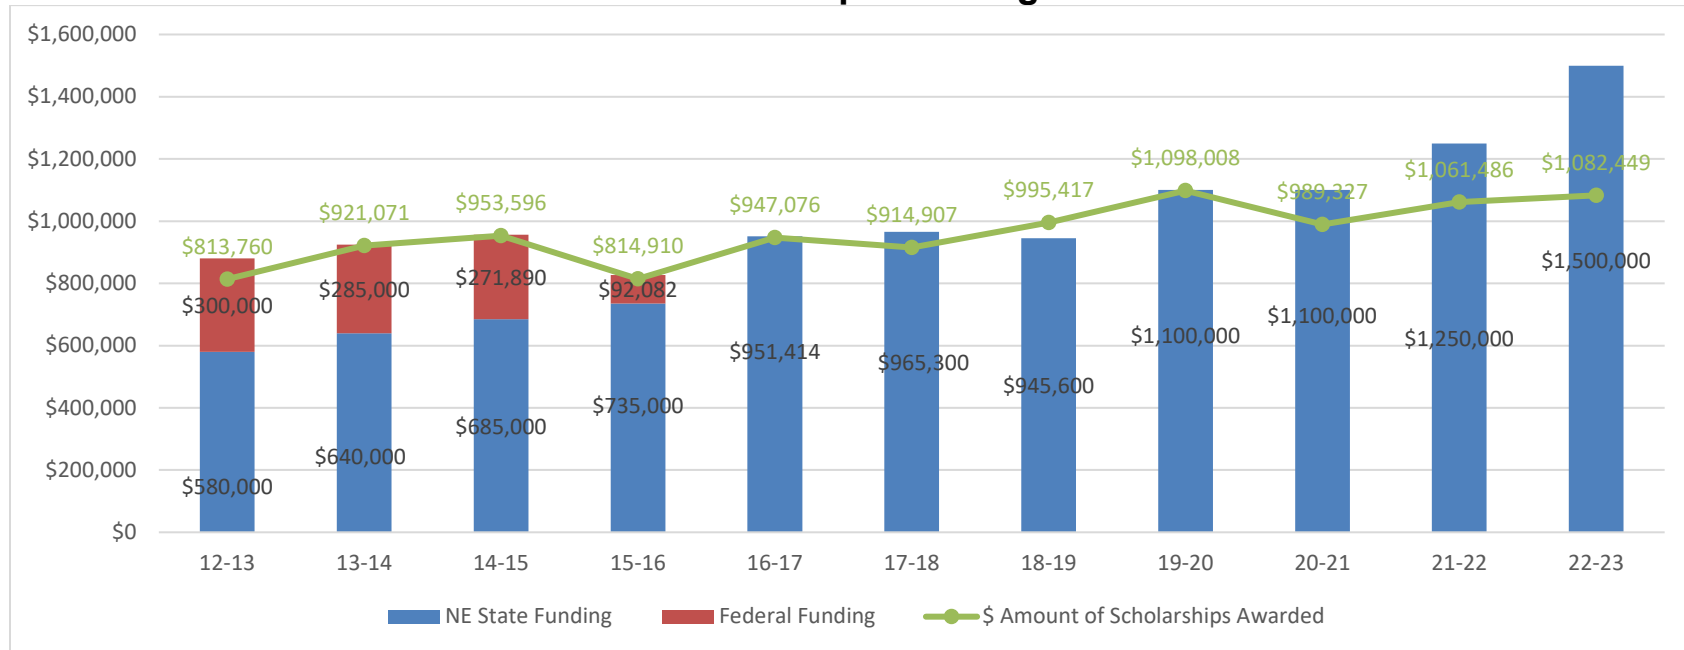

Distribution of the 2022-23 Access College Early Scholarship

The Access College Early (ACE) Scholarship pays the tuition and mandatory fees of eligible Nebraska high school students taking dual-enrollment and early-admit college courses at participating Nebraska colleges and universities¹. For 2022-23 the ACE Scholarship program was funded with \$1,500,000 General funds appropriated by the Legislature.

Nebraska colleges and universities enrolled 2,635 low-income, Nebraska high school students from 214 high schools who received 5,950 ACE Scholarships in 2022-23. The total amount awarded was \$1,082,448.97, with the average award per scholarship equaling \$182.00.

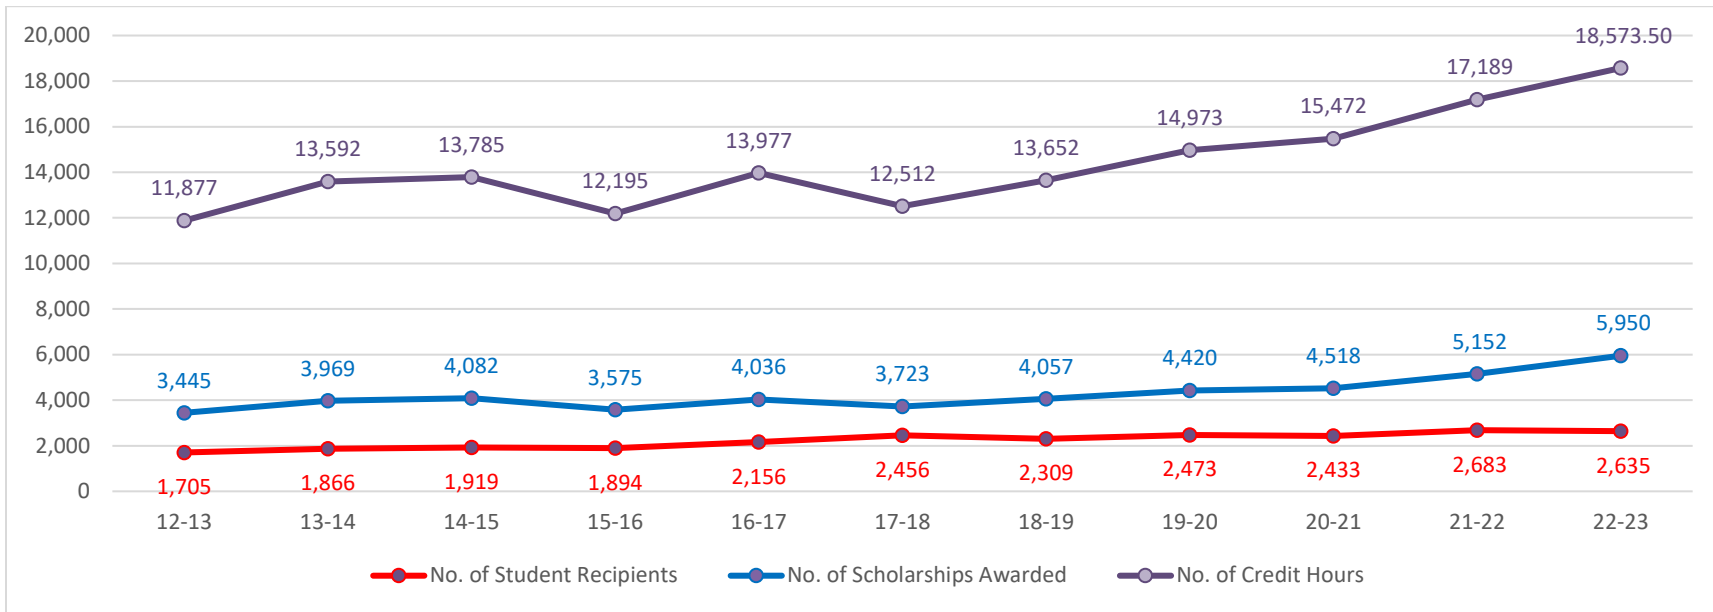

The ACE Scholarship allowed these high school students from low-income families to enroll in 18,573.50 credit hours of college course work. Seventy-four percent of the grades received by these students were a B or better. (See page 10)

Total ACE Scholarships Funding & Awarded

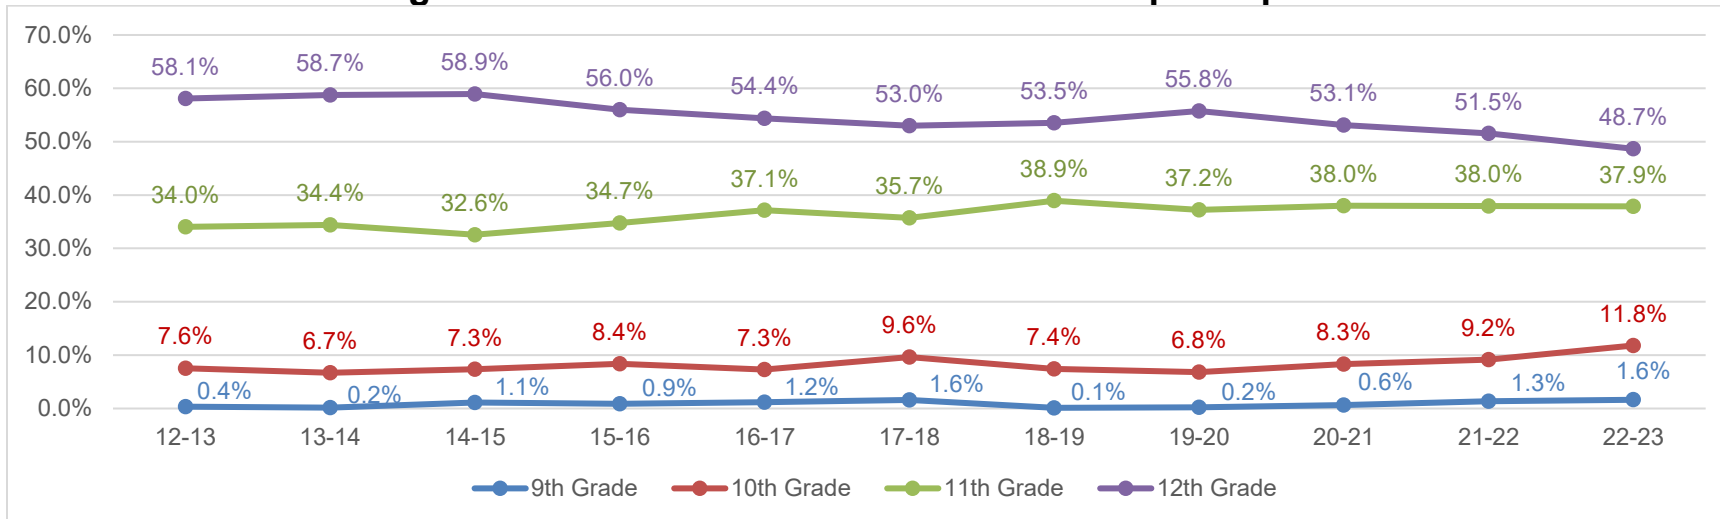

¹ In previous years the number of scholarships awarded to a student was limited each year based on available funding and an estimated number of students who would be applying. For 2022-23 due to the available funding and reduction in charges at the community colleges there was no limit to the number of courses available per student.

College Continuation Rates of ACE Scholarship Recipients

Since 2009, the Coordinating Commission has conducted research to determine how many of the high school seniors who receive ACE scholarships continue on to college compared to other low-income and non-low-income graduates of Nebraska's public high schools.

For this research, a college continuation rate is defined as the percentage of public high school graduates who were enrolled in college within one year of their high school graduation. For example, for the public high school seniors who received ACE scholarships during 2019-20, the college continuation rate is the percentage of these students who were enrolled in college any time between June 1, 2020, and May 31, 2021.

Using student records and summary reports from the Nebraska Department of Education (NDE) and enrollment records from the National Student Clearinghouse (NSC), the Commission calculates the college continuation rates by gender for the public high school seniors who were ACE scholarship recipients.

The Commission then compares the college continuation rates for the seniors who received ACE scholarships while attending public high schools to the college continuation rates for other low-income and non-low-income graduates of Nebraska's public high schools.

Low-income students are defined as students who are approved to receive free or reduced-price school lunches.

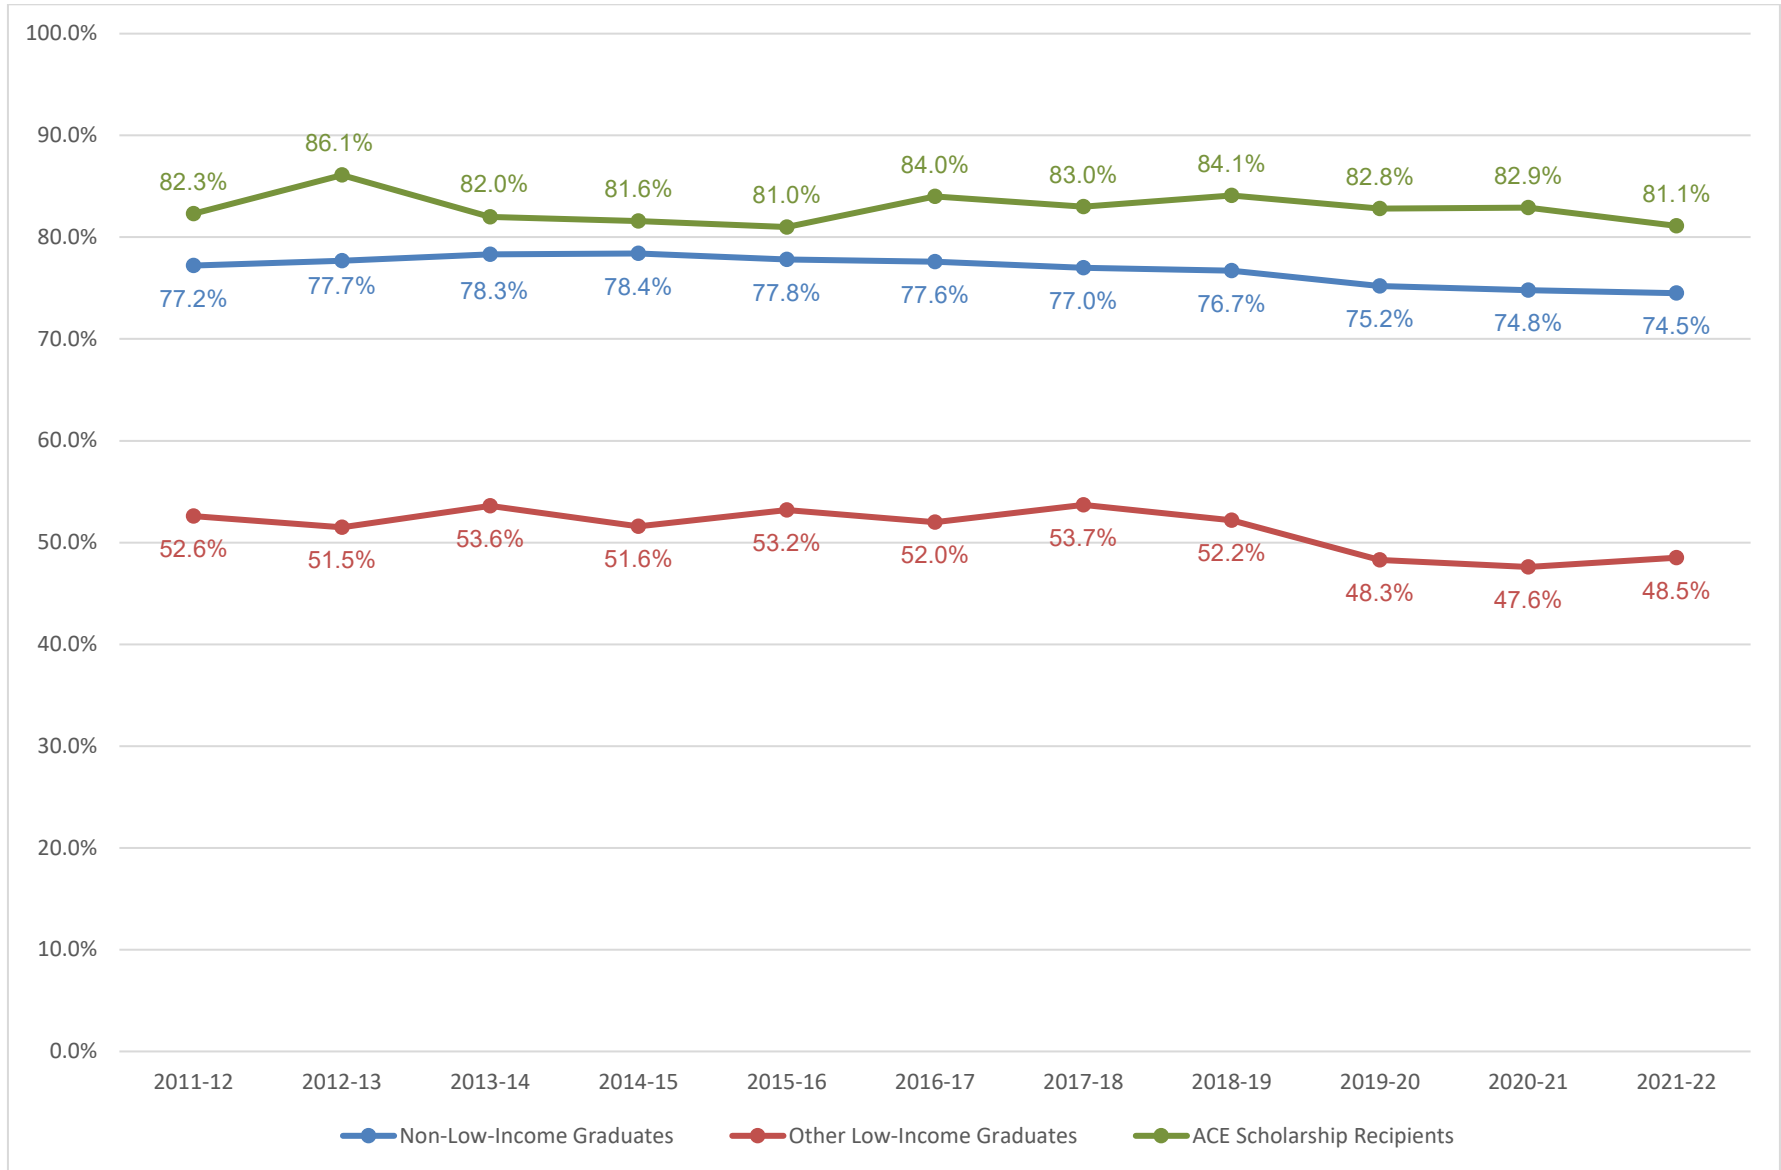

Non-low-income students are students who are not approved for free or reduced-price school lunches.¹

Since the Commission relies on college enrollment records from the NSC, students who continue to college at non-NSC-reporting institutions are classified as not continuing on to college. As a result, college continuation rates reported here are underreported to some degree.

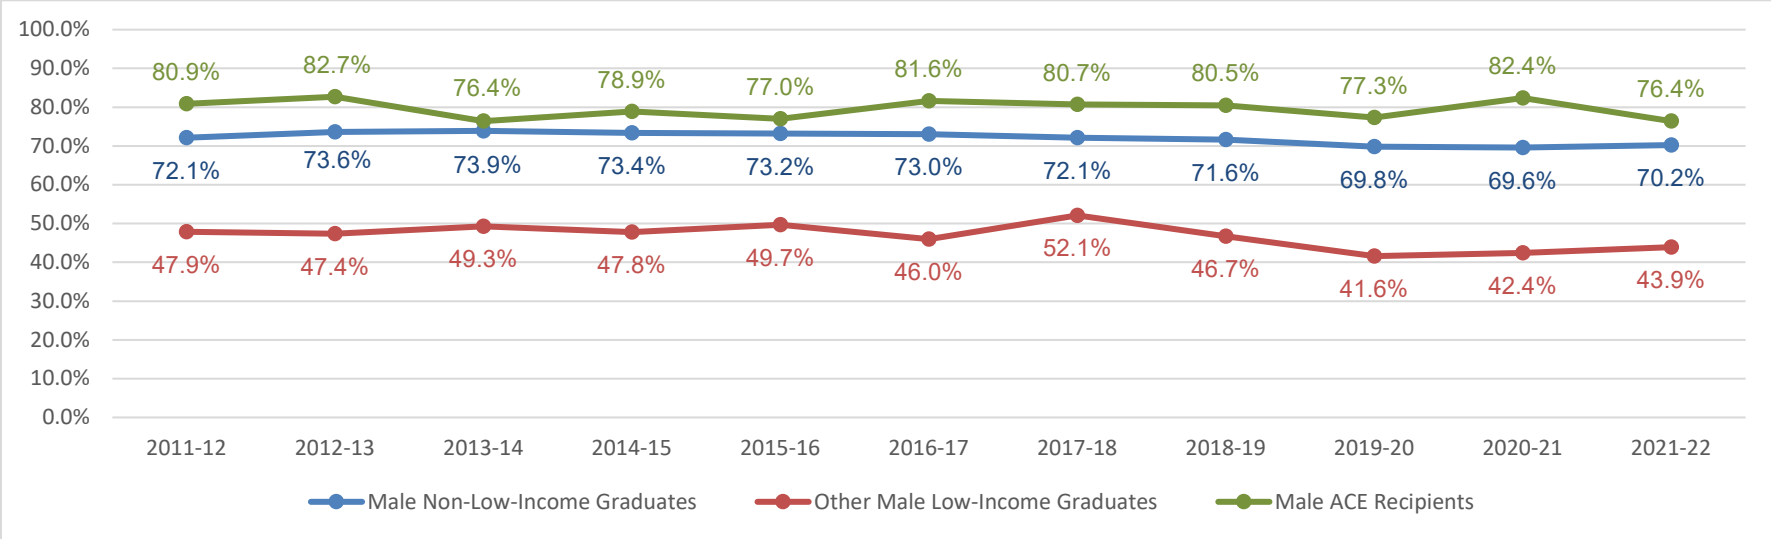

Students who were homeschooled or attended nonpublic (private) high schools are not included in this phase of the research because the NDE does not have sufficient records for the Commission to compute college continuation rates for nonpublic high school students.

¹ Non-low-income students for this study include at least some students who live in low-income households but who did not apply for free or reduced-price school lunches. Since participation in the free or reduced-price school lunch program is the only indicant of household income in the student records maintained by the Nebraska Department of Education, low-income students in the non-low-income category cannot be identified and excluded for the purposes of analysis.
