Executive Summary of Data

Degrees and Other Awards Conferred

2004–2005 through 2014–2015

Total Number of Degrees and Other Awards Conferred

See page 1.2

- In 2014–15, 30,700 degrees and awards were conferred by Nebraska's public and independent institutions and for-profit/career schools, an increase of 5,354 degrees (21.1%) from 2004–05 when 25,346 degrees and awards were conferred. During this same 10-year period, the number of degrees and awards conferred nationally increased 39.2%.¹

Degrees and Other Awards Conferred by Sector

See pages 1.3–1.8

- Between 2004–05 and 2014–15, the number of degrees and awards increased across all sectors except for the for-profit/career school sector. As shown below, the highest rates of increase were in the independent and community college sectors.

Percentage Change by Sector

Sector	14–15 1-Yr	05–15 10-Yr
Univ. of Neb. (■)	-1.0%	17.4%
NSCS (●)	0.7%	12.9%
Neb. CCs (▲)	0.8%	34.4%
Independents (◆)	1.1%	29.7%
For-Profit/Career (×)	-8.0%	-25.8%
Total	-0.2%	21.1%

¹ Between 2004–05 and 2014–15, Nebraska's 12-month enrollment increased 4.0%, from 180,111 to 187,243. During this same 10-year period, 12-month enrollment increased 11.4% nationally (from 24,578,573 to 27,377,979).

- Overall, the number of awards conferred within the public sectors of higher education in Nebraska increased 22.7% between 2004–05 and 2014–15, while the number of awards conferred by the independent and for-profit/career school sectors increased a combined 18.1%. Nationally, the number of awards conferred by public institutions increased 41.6%, while the number conferred by non-public institutions increased 35.4%.
- The University of Nebraska continues to award the highest number of degrees and awards in the state. However, as a result of the increase in the number of awards conferred within the independent and community college sectors, the University of Nebraska and the Nebraska State College System conferred about the same percentages of the total number of degrees, diplomas, and certificates in 2014–15 as in 2004–05.

% of Total Degrees and Other Awards Conferred

Sector	2004–05	2014–15
University of Nebraska	37.5%	36.4%
Nebraska State College System	5.9%	5.5%
Nebraska Community Colleges	22.0%	24.4%
Independent Colleges and Universities	27.4%	29.3%
For-Profit/Career Schools	7.2%	4.4%

- The University of Nebraska-Lincoln (UNL) conferred the highest number of degrees and awards in the state throughout the 10-year period from 2004–05 to 2014–15. However, among the six institutions in the table listed below, UNL experienced the smallest 10-year percentage increase in the number of awards conferred.

Institutions Conferring the Highest Number of Degrees and Other Awards

Rank	Sector	2004–05	2014–15	10-Year % Increase
1	University of Nebraska-Lincoln	4,446	5,050	13.6%
2	University of Nebraska at Omaha	2,367	3,275	38.4%
3	Bellevue University	2,122	2,792	31.6%
4	Central Community College	1,651	2,375	43.9%
5	Creighton University	1,587	2,084	31.3%
6	Metropolitan Community College	927	1,784	92.4%

Degrees and Other Awards Conferred by Award Level

See pages 2.2-2.10

- The number of degrees and other awards conferred increased at all levels between 2004–05 and 2014–15.
- The highest rate of growth between 2004–05 and 2014–15 was at the master's level. Interestingly, while the University of Nebraska experienced a 10-year increase of 4.1% at the master's level, the independent sector more than doubled the number of conferred master's level degrees and certificates.

Note. The bachelor's degree category includes postbaccalaureate certificates. The master's degree category includes post-master's certificates.

Percentage Change by Level		
Level	14–15 1-Yr	05–15 10-Yr
Less-than-Four-Year Certificates (●)	-0.6%	4.9%
Associate's (■)	-0.7%	22.5%
Bachelor's (●)	-3.2%	20.3%
Master's (▲)	8.0%	36.6%
Doctor's (◆)	5.3%	16.7%
Total	-0.2%	21.1%

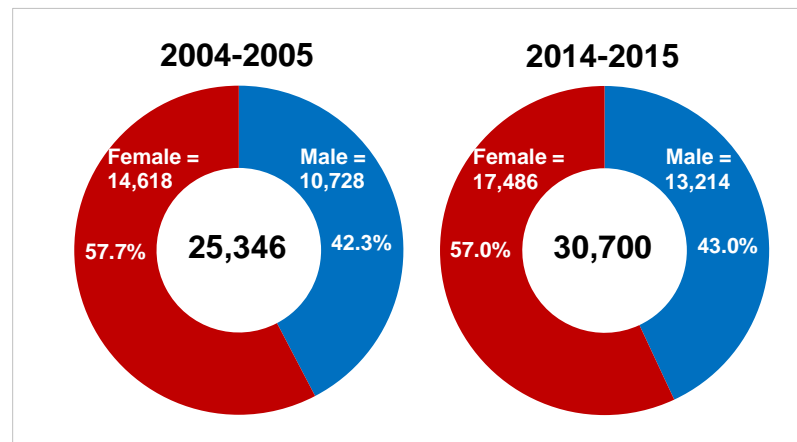

- Undergraduate degrees accounted for 77.0% of the 30,700 degrees and other awards granted in 2014–15. In comparison, 78.8% of the awards conferred in 2004–05 were at the undergraduate level.

- National 10-year growth rates of less-than-four-year certificates (50.2%), associate's degrees (49.8%), bachelor's degrees (33.0%), and doctor's degrees (28.8%) were higher than the calculated rates for corresponding award levels in Nebraska. However, the national growth rate at the master's level (32.9%) was similar to the increase evidenced in Nebraska.
- Notably, in 2014–15, 80.4% of national awards were at the undergraduate level (20.0% less-than-four-year certificates, 20.8% associate's, 39.6% bachelor's), while 19.6% were at the graduate level (16.0% master's, 3.7% doctor's).

Degrees and Other Awards Conferred by Gender

See pages 3.2-3.5

- Nebraska universities, colleges, and for-profit/career schools awarded 17,486 degrees, diplomas, and certificates to women in 2014–15, an increase of 19.6% over the 10-year period from 2004–05 to 2014–15. The largest 10-year percentage increase for awards granted to females was seen at the master's degree level (39.0%).
- Meanwhile, 13,214 degrees and other awards were granted to men in 2014–15, an increase of 23.2% since 2004–05. The largest 10-year percentage increase for awards granted to males was seen at the less-than-four-year certificate level (52.9%).
- As shown in the graph to the right, 57.0% of the awards conferred in Nebraska in 2014–15 were granted to women and 43.0% were granted to men. In comparison, 58.5% of the awards conferred nationally in 2014–15 were granted to women, while the remaining 41.5% were granted to men.

Degrees and Other Awards Conferred by Race/Ethnicity

See pages 4.2-4.7

- Nebraska institutions conferred 29,635 awards to students of known race/ethnicity in 2014–15. Of those awards, 80.5% (23,848) were awarded to white non-Hispanic students, 3.4% (1,014) were awarded to nonresident aliens, and 16.1% (4,773) were awarded to minority students. In comparison, in 2004–05, 87.8% of the awards conferred to students of known race/ethnicity were granted to white non-Hispanics, while 3.5% and 8.7% were respectively granted to non-resident aliens and minorities.
- Since 2004–05, the number of awards conferred to white non-Hispanics increased 10.1%, while the number awarded to nonresident aliens increased 16.2%. Notably, the number of degrees awarded to minority students increased 122.4%: 42.0% for Asian/Pacific Islanders, 36.9% for black non-Hispanics, 270.0% for Hispanics, 5.8% for Native Americans.² While the number of awards conferred to Hispanics increased 46.3% between 2013–14 and 2014–15, the majority of this increase was due to a change in the way Bellevue University identified Hispanic students.³

² Two or more races' was an optional reporting category for degrees granted in 2007–08, 2008–09, and 2009–10. Adoption of the category was mandatory beginning with data reported for the 2010–11 academic year.

³ Bellevue University identified a gap historically with students who should have been coded as Hispanic. The coding of Hispanic students by Bellevue now reflects more accurate counts of these students. With the change in coding, the number of awards conferred to Hispanics at Bellevue University increased 369.7% over the last year (from 145 to 681 awards). Excluding Bellevue University, the number of awards conferred to Hispanics increased 11.1% over the last year (from 1,329 to 1,476 awards).

- Of the degrees and awards conferred nationally in 2014–15 to students of known race/ethnicity, 59.2% were awarded to white non-Hispanic students, 5.3% were awarded to nonresident aliens, and 35.5% were awarded to minority students. Since 2004–05, the number of awards conferred nationally to white non-Hispanics has increased 22.5% while the number awarded to nonresident aliens increased 56.5% and the number awarded to minority students increased 82.7%.

Degrees and Other Awards Conferred by Discipline

See pages 5.2-5.10

- Nebraska's postsecondary institutions confer large numbers of degrees in business and communication, health, and science, technology, engineering and math (STEM). Together, these disciplines accounted for 55.6% of awards conferred in 2014–15.
- As shown in the table below, the largest 10-year percentage increase, 43.2%, was evidenced within the arts and humanities discipline, while the smallest 10-year percentage increase, 8.4%, was evidenced within the education discipline.

Number of Degrees and Other Awards by Discipline

- Nationally, 18.1% of awards conferred in 2014–15 were in arts and humanities, 18.2% in business and communication, 6.1% in education, 19.2% in health, 11.5% in social and behavioral sciences and human services, 14.8% in STEM, and 12.1% in trades.

- Markedly different patterns are revealed when each award level is examined by discipline:

2014–15 Top Discipline by Award Level

Level	Top Discipline	N	% of Total Within Level
Less-than-Four-Year Certificates	Trades	1,600	47.3%
Associate's	Arts and Humanities	1,628	28.5%
Bachelor's and Postbaccalaureate Cert.	Business and Communication	4,127	28.4%
Master's and Post-Master's Cert.	Education	1,535	28.0%
Doctor's	Health	874	55.2%

Completers by Age Group

See page 6.2-6.12

- Section 6 of this report examines the number of completers by age group. Note that since age group data has only been collected since 2011–12, 10-year trends are not available.
- In 2014–15, 46.8% of completers were 24 years of age or younger, while 41.2% were 25-39 years, and 12.0% were 40 years or older. However, as shown in the graph to the right, the majority of undergraduate completers were 24 years or younger while the majority of graduate completers were 25-39 years of age.
- Examination of national data for completers by age group reveals that 47.2% were 24 years of age or younger, 39.6% were 25-39 years, and 13.2% were 40 years or older.

Note. The bachelor's degree category does not include postbaccalaureate certificates. The master's degree category does not include post-master's certificates.

Introduction

Degrees and Other Awards Conferred 2004–2005 through 2014–2015

The *2016 Factual Look at Higher Education in Nebraska* summarizes information from the Integrated Postsecondary Education Data System (IPEDS) survey forms. The Higher Education Act of 1965, as amended, requires institutions that participate in federal student aid programs to submit data to IPEDS.¹

The Coordinating Commission for Postsecondary Education is responsible for verification and reporting of IPEDS data as defined in Neb. Rev. Stat. § 85-1424, which states:

“The commission shall:

- (1) Review and verify all information submitted by public postsecondary systems and institutions as part of the Integrated Postsecondary Education Data System and make such corrections in the submitted information as are necessary; and
- (2) Prepare and disseminate an annual report of the information submitted by each public postsecondary system and institution and those private postsecondary educational institutions willing to cooperate as part of the Integrated Postsecondary Education Data System.”

The annual report consists of three sections—Degrees and Other Awards, Enrollment, and Faculty and Salaries—and each section is approved and disseminated as it is completed. This section of the *Factual Look* summarizes the number of degrees and awards reported through IPEDS surveys of Nebraska’s public and independent colleges and universities and for-profit/career schools.

Institutions report the number of degrees and other awards conferred during a one-year period beginning on July 1. For example, degrees and awards reported for 2014–2015 were awarded between July 1, 2014, and June 30, 2015. The 10-year trends presented in this section of the *Factual Look* are based on the Fall 2005 through Fall 2015 IPEDS Completion surveys of Nebraska’s public and independent colleges and universities and for-profit/career schools. Through these surveys, Nebraska institutions reported the number of degrees, certificates, and diplomas awarded from 2004–05 through 2014–15. In this report, the number of degrees and other awards conferred is analyzed by (1) sector and institution, (2) award level, (3) gender, (4) race/ethnicity and (5) discipline. In addition, the number of completers by age is summarized in section six of this report.

Throughout this report, the total number of degrees and other awards is analyzed by five sectors of higher education in Nebraska. As defined in the Coordinating Commission’s *Comprehensive Statewide Plan for Postsecondary Education*, there are three public sectors of higher education in Nebraska:

¹ A few for-profit/career schools are not included in this analysis because: 1.) The institution is not required to report school statistics to IPEDS, or 2.) The institution reports school statistics to IPEDS, but it has campuses in multiple states and reports combined data for multiple campuses (known as “parent/child” reporting).

University of Nebraska: “The University of Nebraska provides extensive, comprehensive postsecondary education to Nebraska citizens through its four campuses: the University of Nebraska-Lincoln, the University of Nebraska at Omaha, the University of Nebraska at Kearney, and the University of Nebraska Medical Center. The two-year Nebraska College of Technical Agriculture, under the management of the Institute of Agriculture and Natural Resources at UNL, is also part of the University of Nebraska system.”²

Nebraska State College System: “The state colleges at Chadron, Peru, and Wayne are regional institutions that provide educational programs and public services to meet needs indigenous to their service areas.”

Nebraska Community Colleges: “Community colleges provide educational options for students seeking entry-level career training. The education program may culminate in an applied technology associate degree, diploma, or certificate; or an associate of arts or associate of science degree from an academic transfer program.” Nebraska’s six public community colleges are: Central, Metropolitan, Mid-Plains, Northeast, Southeast, and Western Nebraska.

In addition to the public colleges and universities, private not-for-profit, private for-profit, and federally-funded tribal colleges submit data to IPEDS and are categorized into one of two categories:

Nebraska Independent Institutions: All institutions in this sector are not-for-profit colleges, which includes 14 private institutions that are members of the Association of Independent Colleges and Universities, two private Christian colleges, and two federally-funded tribal colleges.

Nebraska For-Profit/Career Schools: All institutions in this sector are private for-profit colleges, except for the three schools of radiologic technology.³ Institutions in this sector offer programs in areas such as cosmetology, business, allied health, real estate, and skilled crafts.

Previous editions of the *Factual Look* and downloadable Excel workbooks with corresponding data are available on the Coordinating Commission’s website: ccpe.nebraska.gov/reports.

² The numbers of degrees reported include degrees conferred by the University of Nebraska Medical Center (UNMC) to graduates of the physician assistant military and distance education programs. These programs serve all branches of the military and most graduates are not residents of Nebraska. For technical reasons, UNMC did not report these students via the IPEDS Completion surveys for 2009–2010 through 2011–2012. UNMC began reporting distance education completions in the 2012–2013 IPEDS Completion surveys; however, physician assistant military completions are not reported. To ensure the *Factual Look* accurately portrays UNMC’s completions, the Commission includes the physician assistant military degrees and distance education degrees in the *Degrees and Other Awards* section of the *Factual Look*. Unfortunately, the Commission is not able to determine UNMC’s enrollment counts for these programs. Therefore, the *Enrollment* section of the *Factual Look* does not include students in the aforementioned programs. The number of degrees added to UNMC’s IPEDS completion totals are as follows: 661 (2009–2010), 627 (2010–2011), 558 (2011–2012), 311 (2012–2013), 344 (2013–2014), and 348 (2014–2015).

³ The Omaha School of Massage and Healthcare of Herzing University changed from for-profit to not-for-profit effective January 2, 2015. However, Herzing was classified as a for-profit institution in IPEDS for the reporting period.

Technical Notes:

1. Due to data corrections and additions to the Commission's database that have been made since the *2015 Factual Look* was published, the *2016 Factual Look* supersedes all previous editions.
2. Adjustments are occasionally made to improve data accuracy. Therefore, it is generally advisable to reference the most recent edition of this report.
3. Due to rounding, percentages may not sum to 100.0% for data summarized in this report.

Section 1

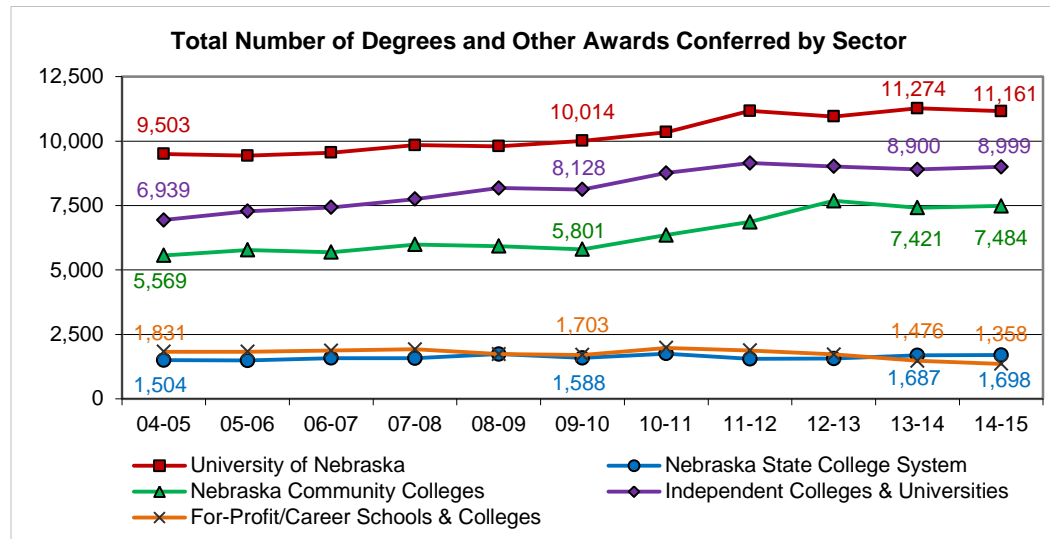

Total Degrees and Other Awards by Sector and by Institution

TOTAL DEGREES AND OTHER AWARDS CONFERRED

- Nebraska's public and independent institutions and for-profit/career schools conferred a total of 30,700 degrees, diplomas, and certificates during the one-year period from July 1, 2014 to June 30, 2015, a decrease of 58 awards, or 0.2%, from one year earlier.
- Over the 10-year period from 2004–05 to 2014–15, the total number of degrees and awards conferred by postsecondary institutions in Nebraska increased 21.1%.

TOTAL DEGREES AND OTHER AWARDS CONFERRED by SECTOR

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred changed as follows:

Sector	14–15 1-Yr	05–15 10-Yr
Univ. of Neb. (■)	-1.0%	17.4%

Independents (◆)	1.1%	29.7%
For-Profit/Career (x)	-8.0%	-25.8%
Total	-0.2%	21.1%

- As a result of the increase in the total number of degrees and other awards within the independent and community college sectors, the University of Nebraska and the Nebraska State College System conferred about the same percentages of the total number of degrees, diplomas, and certificates in 2014–15 as in 2004–05.

DEGREES AND OTHER AWARDS CONFERRED BY THE UNIVERSITY OF NEBRASKA

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred by the University of Nebraska changed as follows:

Institution	14–15 1-Yr	05–15 10-Yr
NCTA (x)	-3.6%	25.0%
UNK (▲)	1.7%	18.0%
UNL (◆)	-2.5%	13.6%
UNMC (●)	0.6%	-4.4%
UNO (■)	-0.3%	38.4%
Sector Total	-1.0%	17.4%

DEGREES AND OTHER AWARDS CONFERRED BY THE NEBRASKA STATE COLLEGE SYSTEM

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred by the Nebraska State College System changed as follows:

Chadron (■)	7.8%	42.3%
Peru (▲)	-1.8%	31.2%
Wayne (◆)	-3.6%	-10.0%
Sector Total	0.7%	12.9%

Note. More than 70% of the decreased number of degrees in 2009–10 at Peru State was at the master's level. This decrease was due primarily to new caps on online course enrollment and controlled cohort registrations.

DEGREES AND OTHER AWARDS CONFERRED BY NEBRASKA COMMUNITY COLLEGES

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred by Nebraska's Community Colleges changed as follows:

Institution	14–15 1-Yr	05–15 10-Yr
Central (■)	1.4%	43.9%
Metropolitan (●)	4.1%	92.4%
Mid-Plains (x)	1.2%	20.9%
Northeast (▲)	5.2%	33.1%
Southeast (◆)	-2.2%	-1.4%
Western (○)	-14.2%	20.3%
Sector Total	0.8%	34.4%

- The changes between 2004–05 and 2014–15 in the percentage of degrees and other awards conferred at Nebraska community colleges were due primarily to the increase in the number of degrees and other awards conferred at Central Community College (particularly less-than-four-year certificates) and Metropolitan Community College.

DEGREES AND OTHER AWARDS CONFERRED BY NEBRASKA INDEPENDENT INSTITUTIONS

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred within the independent sector changed as follows:

Bellevue (■)	-2.2%	31.6%
Creighton (x)	-1.6%	31.3%
Concordia (●)	22.2%	43.0%
Doane-Lincoln (▲)	-0.5%	N/A
Nebraska Wesleyan (◆)	-11.3%	17.1%
Other Independents (●)	6.7%	2.0%
Sector Total	1.1%	29.7%

Note. These graphs detail data for: 1.) The five independent institutions that granted the highest number of degrees and other awards within the independent sector in 2014–15, and 2.) The combined data for the remaining institutions in the independent sector. Doane College-Lincoln began conferring degrees in 2005–06.

DEGREES AND OTHER AWARDS CONFERRED BY NEBRASKA FOR-PROFIT/CAREER SCHOOLS

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred by the for-profit/career schools and colleges changed as follows:

Institution	14–15 1-Yr	05–15 10-Yr
Kaplan-Omaha † (■)	-10.5%	-8.2%
Kaplan-Lincoln † (x)	-0.5%	15.3%
Xenon Int'l. ‡ (●)	-9.4%	-2.0%
Joseph's ‡ (▲)	14.0%	-33.3%
ITT Tech-Omaha † (◆)	-19.4%	5.5%
Other Degree (●)	-10.4%	-56.4%
Other Non-Degree (■)	-9.9%	-23.9%
Sector Total	-8.0%	-25.8%

- The changes between 2004–05 and 2014–15 in the percentage of degrees and other awards conferred at the other degree-granting schools were due primarily to the fluctuations in the number of degrees and other awards conferred by Vatterott College (which closed in fall 2005) and Vatterott College-Spring Valley, (which closed in fall 2015).

Note. These graphs detail data for: 1.) The five for-profit/career schools that granted the highest number of degrees and other awards within the for-profit/career school sector in 2014–15, 2.) The combined data for the remaining degree-granting institutions in the for-profit/career school sector, and 3.) The combined data for the remaining non-degree-granting institutions in the for-profit/career school sector. Institutions are classified as degree-granting, based on their classification for the 2014–15 survey. Sector totals may be different from those published in prior editions of the *Factual Look* due to schools changing from the non-degree- to the degree-granting category. † = degree-granting; ‡ = non-degree-granting.

Section 2

Total Degrees and Other Awards by Award Level

CLASSIFICATION OF DEGREES AND OTHER AWARDS

The analyses in this section focus on the total number of degrees and other awards by level as defined below.

“Award levels are identified on the basis of recognition for their completion, duration, or a combination thereof. Degree-designated award levels indicate those degree levels for which the institution is authorized to make formal awards. Length of study is the equivalent of the number of full-time academic years. For example, at least one but less than two years refers to the number of credits or the course load that would normally be completed by a full-time student attending within the stated time period.” (*Data source: IPEDS Glossary*)

Beginning with the collection of data for the 2007–08 academic year, IPEDS started the transition to the full adoption of revised classifications for professional programs beyond the baccalaureate level.¹ (These data were collected through the 2008–09 IPEDS Completions Survey.) Institutions were given the option of using the “old” or “new” categories to report the number of degrees and awards conferred in 2007–08 and 2008–09. Adoption of the revised categories was mandatory beginning with data reported for the 2009–10 academic year.

In the past, first-professional degrees granted by Nebraska institutions included degrees only in dentistry, medicine, pharmacy and law. Under the new classification system, doctoral degrees in audiology, occupational therapy, physical therapy, and nursing administration are also included in the “doctor’s degree - professional practice” category. Therefore, for the 2008–09 and subsequent editions of the *Factual Look*, degrees in these categories that were awarded prior to the new degree classification are now counted as professional practice doctor’s degrees.

Previously, first-professional certificates were a separate IPEDS category and the Commission included these certificates in the “first-professional degree” category for the trend analyses reported in the *Factual Look* and other Commission reports. For the purposes of the 2008–09 and subsequent editions of the *Factual Look*, first-professional certificates awarded prior to the new classification system are now included with post-master’s certificates in the “master’s degree” category. Including them in the “master’s degree” category is necessary because Nebraska institutions do not confer enough post-master’s certificates (including what were previously called first-professional certificates) to maintain them as a separate category for trend analyses.

Note: There were no changes in the IPEDS categories below the master’s degree level.

The Commission has adapted its data analysis to the new IPEDS categories for award levels as defined in the following table.

¹ The first-professional degree category was eliminated and all doctoral degrees, including those previously classified as “first-professional,” are now classified into one of the following categories: professional practice, research/scholarship, or other. In Nebraska, this change affected the classification of degrees conferred by UNL, UNO, UNMC, Creighton University, and the College of Saint Mary.

Award Level Name Used in this Report	IPEDS Category Name	IPEDS Definition ^a
Less-than- Four-Year Certificates	Postsecondary award, certificate, or diploma (less than 1 academic year)	An award that requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in less than 1 academic year (2 semesters or 3 quarters), or designed for completion in less than 30 semester or trimester credit hours, or in less than 45 quarter credit hours, or in less than 900 contact or clock hours.
	Postsecondary award, certificate, or diploma (at least 1 but less than 2 academic years)	An award that requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 1 but less than 2 full-time equivalent academic years, or designed for completion in at least 30 but less than 60 semester or trimester credit hours, or in at least 45 but less than 90 quarter credit hours, or in at least 900 but less than 1,800 contact or clock hours.
	Postsecondary award, certificate, or diploma (at least 2 but less than 4 academic years)	An award that requires completion of an organized program of study at the postsecondary level (below the baccalaureate degree) in at least 2 but less than 4 full-time equivalent academic years, or designed for completion in at least 60 but less than 120 semester or trimester credit hours, or in at least 90 but less than 180 quarter credit hours, or in at least 1,800 but less than 3,600 contact or clock hours.
Associate's	Associate's Degree	An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.
Bachelor's ^b	Bachelor's Degree ^b	An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years.
	Postbaccalaureate Certificate ^b	An award that requires completion of an organized program of study beyond the bachelor's. It is designed for persons who have completed a baccalaureate degree, but does not meet the requirements of a master's degree. Note: Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.
Master's ^b	Master's Degree ^{b c}	An award that requires the successful completion of a program of study of at least the full-time equivalent of 1 but not more than 2 academic years of work beyond the bachelor's degree. Some of these degrees, such as those in Theology (M.Div., M.H.L./Rav) that were formerly classified as "first-professional," may require more than two full-time equivalent academic years of work.
	Post-Master's Certificate ^b	An award that requires completion of an organized program beyond the master's degree, but does not meet the requirements of academic degrees at the doctor's level.

Award Level Name Used in this Report	IPEDS Category Name	IPEDS Definition ^a
Doctor's	Doctor's Degree- Professional Practice ^c	A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.
	Doctor's Degree- Research/Scholarship	A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M., and others, as designated by the awarding institution.
	Doctor's Degree-Other ^d	A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice.

^aData source: Glossary, Integrated Postsecondary Education Data System (IPEDS), National Center for Education Statistics, U.S. Department of Education, June 30, 2016. ^bFor Sections 2 through 5 of this report, bachelor's degrees and postbaccalaureate certificates are collapsed into the category "bachelor's" while master's degrees and post-master's certificates are collapsed into the category "master's." However, IPEDS collapses postbaccalaureate and post-master's certificates into one category for the age data presented in Section 6 of this report. Since the Commission is unable to parse out the data for these certificates, the degree level categories presented in Sections 2 through 5 are different than the degree level categories presented in Section 6 of this report. ^cIn the opinions of Michelle Coon, Survey Director for the 2009 IPEDS Completions Survey, and Andrew Mary, Survey Director of the 2010 IPEDS Completions Survey, institutions should classify the Master of Laws (LL.M.) in the master's degree category. However, the University of Nebraska-Lincoln classifies the degree (with a CIP of 22.0299) as a professional practice doctorate. ^dThere are no institutions in Nebraska that currently classify any degrees in this category.

Section 4

Total Degrees and Other Awards by Race/Ethnicity

CLASSIFICATION OF RACE/ETHNICITY

Beginning with the collection of data for the 2007–08 academic year, IPEDS started the transition to the full adoption of new categories of race/ethnicity. Institutions were given the option of using the “old” or “new” categories to report the number of degrees and awards conferred by race/ethnicity in 2007–08, 2008–09, and 2009–10. Adoption of the revised categories was mandatory beginning with data reported for the 2010–11 academic year.

“Race/ethnicity (new definition): Categories developed in 1997 by the Office of Management and Budget (OMB) that are used to describe groups to which individuals belong, identify with, or belong in the eyes of the community. The categories do not denote scientific definitions of anthropological origins. The designations are used to categorize U.S. citizens, resident aliens, and other eligible non-citizens.” (*Data source: IPEDS Glossary*)

Old IPEDS Race/Ethnicity Categories	New IPEDS Race/Ethnicity Categories
1) Non-Resident Alien 2) Race and Ethnicity Unknown 3) Black, Non-Hispanic 4) American Indian/Alaskan Native 5) Asian/Pacific Islander 6) Hispanic 7) White, Non-Hispanic	1) Nonresident Alien 2) Race and Ethnicity Unknown 3) Hispanics of any Race For Non-Hispanics Only: 4) American Indian or Alaska Native 5) Asian 6) Black or African American 7) Native Hawaiian or Other Pacific Islander 8) White 9) Two or More Races

The Commission has adapted its data analysis to the new IPEDS categories for race/ethnicity as defined in the following table.

Race/Ethnicity Category Name Used in this Report	IPEDS Category Name	IPEDS and/or Commission Definition
Asian/Pacific Islander	Asian	A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
	Native Hawaiian or Other Pacific Islander	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
Black Non-Hispanic	Black or African American	A person having origins in any of the black racial groups of Africa.
Hispanic	Hispanic/Latino	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
Known Race/Ethnicity	-	Includes persons categorized into any of the following IPEDS race/ethnicity categories: American Indian or Alaska Native, Asian, Black or African American, Hispanic/Latino, Native Hawaiian or Other Pacific Islander, Nonresident Alien, Two or More Races, White.
Minority	-	Includes persons categorized into any of the following IPEDS race/ethnicity categories: American Indian or Alaska Native, Asian, Black or African American, Hispanic/Latino, Native Hawaiian or Other Pacific Islander, Two or More Races.
Native American	American Indian or Alaska Native	A person having origins in any of the original peoples of North and South America (including Central America) who maintains cultural identification through tribal affiliation or community attachment.
Nonresident Alien	Nonresident Alien	A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely. Note: Nonresident aliens are to be reported separately in the places provided, rather than in any of the racial/ethnic categories.
Two or More Races	Two or More Races	Category used by institutions to report persons who selected more than one race.
Unknown Race/Ethnicity	Race and Ethnicity Unknown	Category used to report students whose race and ethnicity are not known.
White Non-Hispanic	White	A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
-	Resident Alien (and Other Eligible Non-Citizens)	A person who is not a citizen or national of the United States but who has been admitted as a legal immigrant for the purpose of obtaining permanent resident alien status (and who holds either an alien registration card (Form I-551 or I-151), a Temporary Resident Card (Form I-688), or an Arrival-Departure Record (Form I-94) with a notation that conveys legal immigrant status such as Section 207 Refugee, Section 208 Asylee, Conditional Entrant Parolee or Cuban-Haitian). Note: Resident aliens are to be reported in the appropriate racial/ethnic categories along with United States citizens.

TOTAL DEGREES AND OTHER AWARDS CONFERRED by KNOWN and UNKNOWN RACE/ETHNICITY

- Nebraska universities, colleges, and for-profit/career schools awarded 29,635 degrees, diplomas, and certificates to students of known race/ethnicity in 2014–15, a one-year increase of 0.0%. Over the 10-year period from 2004–05 to 2014–15, the number of degrees and awards granted to students of known race/ethnicity increased 20.0%.
- Meanwhile, 1,065 degrees and other awards were granted to students of unknown race/ethnicity in 2014–15, a one-year decrease of 5.3%. Between 2004–05 and 2014–15, the number of degrees and other awards conferred to students of unknown race/ethnicity increased 61.6%. Since reaching a high of 1,875 in 2010–11, the number of degrees and other awards granted to students of unknown race/ethnicity has decreased 43.2%, reflecting a reversal of the previous trend of students choosing not to report their race/ethnicity.

Note. The remaining analyses in this section focus on degrees awarded to students of known race/ethnicity as defined on page 4.3.

Degree recipients of unknown race/ethnicity are *excluded* from the following calculations under the basic, but not necessarily correct, assumption that these students are proportionately distributed among the total number of degree recipients by race/ethnicity, by award level, and by sector.

DEGREES AND OTHER AWARDS CONFERRED by RACE/ETHNICITY

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred by Nebraska's postsecondary institutions changed as follows:

- Over the last decade, the number of degrees and other awards granted to minority students has more than doubled. (See the next page for details.)

DEGREES AND OTHER AWARDS CONFERRED by RACE/ETHNICITY

Note. 'Two or more races' was an optional reporting category for degrees granted in 2007–08, 2008–09, and 2009–10. Adoption of the category was mandatory beginning with data reported for the 2010–11 academic year.

- Between 2004–05 and 2014–15, the number of degrees and other awards conferred by Nebraska's postsecondary institutions changed as follows:

Note. The bachelor's degree category includes postbaccalaureate certificates. The master's degree category includes post-master's certificates. 'Two or more races' was an optional reporting category for degrees granted in 2007–08, 2008–09, and 2009–10. Adoption of the category was mandatory beginning with data reported for the 2010–11 academic year. At Bellevue University, awards at the bachelor's degree level increased 345.5% over the last year (from 110 to 490 awards) while awards at the master's degree level increased 442.9% over the last year (from 35 to 190 awards). However, the majority of this increase was due to a change in the way Bellevue identified Hispanic students. (See page S4 of the Executive Summary for more information.)

The for-profit/career schools did not award degrees at the master's level until 2006–07. Nebraska's for-profit/career schools do not confer doctor's degrees. 'Two or more races' was an optional reporting category for degrees granted in 2007–08, 2008–09, and 2009–10. Adoption of the category was mandatory beginning with data reported for the 2010–11 academic year.

CLASSIFICATION OF INSTRUCTIONAL PROGRAMS (CIP) CODES DISCIPLINE CLUSTERS

The analyses in this section are based on the number of degrees and other awards conferred by discipline.

“Classification of Instructional Programs (CIP): A taxonomic coding scheme for secondary and postsecondary instructional programs. It is intended to facilitate the organization, collection, and reporting of program data using classifications that capture the majority of reportable data. The CIP is the accepted federal government statistical standard on instructional program classifications and is used in a variety of education information surveys and databases.”

“CIP Code: A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.” *(Data source: IPEDS Glossary)*

The following discipline clusters are based on the two-digit CIP codes defined by the National Center for Education Statistics.

The for-profit/career schools did not award degrees at the master's level until 2006–07. Nebraska's for-profit/career schools do not confer doctor's degrees.

Section 6

Completers by Age Group

CLASSIFICATION OF AGE GROUP

Beginning with the collection of data for the 2011–12 academic year, IPEDS collects data on the number of students who earned awards by age group.¹

Unlike the preceding sections of this report, which analyze the number of degrees and other awards conferred, the analyses in this section focus on the number of completers who received degrees by award level.

“Completer: A student who receives a degree, diploma, certificate, or other formal award. In order to be considered a completer, the degree/award must actually be conferred.” *(Data source: IPEDS Glossary)*

Each student is counted only once per award level. For example, if a student is awarded two bachelor’s degrees, the student is only counted once. If a student is awarded an associate’s degree and a bachelor’s degree, that student is counted once at the associate’s level and once at the bachelor’s level.

Another important distinction between Sections 1-5 and Section 6 is that IPEDS award levels are consolidated for data collected on age groups. As outlined on pages 2.3 and 2.4, IPEDS utilizes 11 award levels for data collected on the number of awards. However, for data collected on the number of completers, IPEDS utilizes only seven award levels. As outlined in the following table, the notable differences between the awards levels are 1.) Postbaccalaureate and post-master’s certificates are reported as one category for age group data (prohibiting the Commission from collapsing bachelor’s degrees with postbaccalaureate certificates and collapsing master’s degrees with post-master’s certificates), and 2.) Research/scholarship, professional practice, and other doctoral degrees are reported as one category for age group data (prohibiting the Commission from analyzing doctoral degrees by classification).

¹ Student’s age at the time the award was conferred.

COMPLETERS by KNOWN and UNKNOWN AGE GROUP

- Nebraska universities, colleges, and for-profit/career schools conferred awards to 29,857 completers (i.e., students) in 2014–15, up 1.7% since 2011–12.
- As shown in the table below, the age groups of the vast majority of completers are known.

Note. The remaining analyses in this section focus on completers of known age.

Completers of unknown age are *excluded* from the following calculations under the basic, but not necessarily correct, assumption that these students are proportionately distributed among the total number of degree recipients by age, by award level, and by sector.
