Introduction

Degrees and Other Awards Conferred

2013-2014 through 2023-2024

The *2025 Factual Look at Higher Education in Nebraska* summarizes information from the Integrated Postsecondary Education Data System (IPEDS) survey forms. The Higher Education Act of 1965, as amended, requires institutions that participate in federal student aid programs to submit data to IPEDS.¹

The Coordinating Commission for Postsecondary Education is responsible for verification and reporting of IPEDS data as defined in Neb. Rev. Stat. § 85-1424, which states:

“The commission shall:

- (1) Review and verify all information submitted by public postsecondary systems and institutions as part of the Integrated Postsecondary Education Data System and make such corrections in the submitted information as are necessary; and
- (2) Prepare and disseminate an annual report of the information submitted by each public postsecondary system and institution and those private postsecondary educational institutions willing to cooperate as part of the Integrated Postsecondary Education Data System.”

The annual report consists of two sections—Degrees and Other Awards Conferred, and Enrollment—and each section is approved and disseminated as it is completed. This section of the *Factual Look* summarizes the number of degrees and awards reported through IPEDS surveys of Nebraska’s public and nonpublic colleges and universities.

Institutions report the number of degrees and other awards conferred during a one-year period beginning on July 1. For example, degrees and awards reported for 2023-24 were awarded between July 1, 2023, and June 30, 2024. The 10-year trends presented in this section of the *Factual Look* are based on the Fall 2014 through Fall 2024 IPEDS Completion surveys of Nebraska’s public and nonpublic colleges. Through these surveys, Nebraska institutions reported the number of degrees, certificates, and diplomas awarded from 2013-14 through 2023-24. In this report, the number of degrees and other awards conferred is analyzed by (1) sector and institution, (2) award level, (3) sex, (4) race/ethnicity, and (5) discipline cluster. In addition, the number of completers by age is summarized in section six of this report.

Throughout this report, the total number of degrees and other awards is analyzed by four sectors of higher education in Nebraska. As defined in the Coordinating Commission’s *Comprehensive Statewide Plan for Postsecondary Education*, there are three public sectors of higher education in Nebraska:

¹ A few nonpublic institutions are not included in this analysis because: 1.) The institution is not required to report school statistics to IPEDS, or 2.) The institution reports school statistics to IPEDS, but it has campuses in multiple states and reports combined data for multiple campuses (known as “parent/child” reporting).

University of Nebraska: “The University of Nebraska provides extensive, comprehensive postsecondary education to Nebraska citizens through its four campuses: the University of Nebraska-Lincoln, the University of Nebraska at Omaha, the University of Nebraska at Kearney, and the University of Nebraska Medical Center. The two-year Nebraska College of Technical Agriculture, under the management of the Institute of Agriculture and Natural Resources at UNL, is also part of the University of Nebraska system.”²

Nebraska State College System: “The state colleges at Chadron, Peru, and Wayne are regional institutions that provide educational programs and public services to meet needs indigenous to their service areas.”

Nebraska Community Colleges: “Community colleges provide educational options for students seeking entry-level career training. The education program may culminate in an applied technology associate degree, diploma, or certificate; or an associate of arts or associate of science degree from an academic transfer program.” Nebraska’s six public community colleges are: Central, Metropolitan, Mid-Plains, Northeast, Southeast, and Western Nebraska.

In addition to the public colleges and universities, private not-for-profit, private for-profit, out-of-state public, and federally-funded tribal colleges submit data to IPEDS and are categorized as Nonpublic Colleges and Universities. Several institutions in this sector no longer report to IPEDS due to school closings and institutional changes.

Data for the most recent edition of the *Factual Look* is available for download on the Coordinating Commission’s website: ccpe.nebraska.gov/reports.

² The numbers of degrees reported include degrees conferred by the University of Nebraska Medical Center (UNMC) to graduates of the physician assistant military and distance education programs. These programs serve all branches of the military and most graduates are not residents of Nebraska. For technical reasons, UNMC did not report these students via the IPEDS Completion surveys prior to 2012-13. UNMC began reporting distance education completions in the 2012-13 IPEDS Completion surveys; however, physician assistant military completions are not reported. To ensure the *Factual Look* accurately portrays UNMC’s completions, the Commission includes the physician assistant military degrees and distance education degrees in the *Degrees and Other Awards Conferred* section of the *Factual Look*. Unfortunately, the Commission is not able to determine UNMC’s enrollment counts for these programs. Therefore, the *Enrollment* section of the *Factual Look* does not include students in the aforementioned programs. The number of degrees added to UNMC’s IPEDS completion totals are as follows: 344 (2013-14), 348 (2014-15), 330 (2015-16), 334 (2016-17), 358 (2017-18), 353 (2018-19), 364 (2019-20), 394 (2020-21), 394 (2021-22), 372 (2022-23), and 371 (2023-24).

Technical Notes:

1. Due to data corrections and additions to the Commission's database that have been made since the *2024 Factual Look* was published, the *2025 Factual Look* supersedes all previous editions.
2. Adjustments are occasionally made to improve data accuracy. Therefore, it is generally advisable to reference the most recent edition of this report.
3. Due to rounding, percentages may not sum to 100.0% for data summarized in this report.

Associate's	Associate's Degree	An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

Award Level Name Used in this Report	IPEDS Category Name	IPEDS Definition
Bachelor's ^c	Bachelor's Degree ^c	An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a 5-year cooperative (work-study) program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years.
	Postbaccalaureate Certificate ^c	An award that requires completion of an organized program of study beyond the bachelor's. It is designed for persons who have completed a baccalaureate degree, but does not meet the requirements of a master's degree. Note: Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.
Master's ^c	Master's Degree ^c	An award that requires the successful completion of a program of study of at least the full-time equivalent of 1 but not more than 2 academic years of work beyond the bachelor's degree. Some of these degrees, such as those in Theology (M.Div., M.H.L./Rav) that were formerly classified as 'first-professional', may require more than two full-time equivalent academic years of work.
	Post-Master's Certificate ^c	An award that requires completion of an organized program beyond the master's degree, but does not meet the requirements of academic degrees at the doctor's level.
Doctor's	Doctor's Degree-Professional Practice	A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as first-professional and may include: Chiropractic (D.C. or D.C.M.); Dentistry (D.D.S. or D.M.D.); Law (J.D.); Medicine (M.D.); Optometry (O.D.); Osteopathic Medicine (D.O); Pharmacy (Pharm.D.); Podiatry (D.P.M., Pod.D., D.P.); or, Veterinary Medicine (D.V.M.), and others, as designated by the awarding institution.
	Doctor's Degree-Research/Scholarship	A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. Some examples of this type of degree may include Ed.D., D.M.A., D.B.A., D.Sc., D.A., or D.M, and others, as designated by the awarding institution.
	Doctor's Degree-Other	A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice.

Note. Data source: Glossary, Integrated Postsecondary Education Data System (IPEDS), National Center for Education Statistics, U.S. Department of Education, April 17, 2025.

^aBeginning with data for 2019-20, this award level category was one of two added options for reporting certificates of less than one academic year in length.

^bBeginning with data for 2019-20, references to academic year equivalencies were removed from all levels of subbaccalaureate certificates. ^cFor Sections 2 through 5 of this report, bachelor's degrees and postbaccalaureate certificates are collapsed into the category "bachelor's" while master's degrees and post-master's certificates are collapsed into the category "master's." However, IPEDS collapses postbaccalaureate and post-master's certificates into one category for the age data presented in Section 6 of this report. Since the Commission is unable to parse out the data for these certificates, the degree level categories presented in Sections 2 through 5 are different than the degree level categories presented in Section 6 of this report.

Section 4

Total Degrees and Other Awards by Race/Ethnicity

CLASSIFICATION OF RACE/ETHNICITY

The analyses in this section are based on the number of degrees and other awards conferred by race/ethnicity.

“Race/ethnicity: Categories developed in 1997 by the Office of Management and Budget (OMB) that are used to describe groups to which individuals belong, identify with, or belong in the eyes of the community. The categories do not denote scientific definitions of anthropological origins. The designations are used to categorize U.S. citizens, residents, and other eligible non-citizens. Individuals are asked to first designate ethnicity as: Hispanic or Latino or Not Hispanic or Latino. Second, individuals are asked to indicate all races that apply among the following: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, White.” *(Data source: IPEDS Glossary)*

“Method of collection - Institutions must collect race and ethnicity information using a 2-question format. The first question is whether the respondent is Hispanic/Latino. The second question is whether the respondent is from one or more races from the following list: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, and White. Institutions should allow students and staff to self-identify their race and ethnicity. For further details on the guidance for collecting these data, please see the full Federal Register notice.

Method of reporting aggregate data - Institutions must report aggregate data to the U.S. Department of Education using the NINE categories below. Racial/ethnic designations are requested only for United States citizens, residents, and other eligible non-citizens. Eligible noncitizens include all students who completed high school or a GED equivalency within the United States (including DACA and undocumented students) and who were not on an F-1 non-immigrant student visa at the time of high school graduation. More information about other eligible (for financial aid purposes) non-citizens is available at <https://studentaid.gov/understand-aid/eligibility/requirements/non-us-citizens>.

- Hispanic or Latino, regardless of race

For Non-Hispanic/Latino individuals:

- American Indian or Alaska Native
- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White
- Two or more races

In addition, the following categories may be used:

- U.S. Nonresident
- Race and ethnicity unknown”

(Data source: IPEDS Instructions)

The Commission has adapted its data analysis to the IPEDS categories for race/ethnicity as defined in the following table.

Race/Ethnicity Category Name Used in this Report	IPEDS Category Name	IPEDS and/or Commission Definition

U.S. Nonresident ^a	U.S. Nonresident	A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely. Do not include DACA, undocumented, or other eligible noncitizens in this category. Note: U.S. Nonresidents are to be reported separately, in the boxes provided, rather than included in any of the seven racial/ethnic categories.
Unknown Race/Ethnicity	Race and Ethnicity Unknown	The category used to report students whose race and ethnicity are not known. This category is used only if the person did not select EITHER a racial or ethnic designation.
White Non-Hispanic	White	A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

Total Degrees and Other Awards by Discipline Cluster

CLASSIFICATION OF INSTRUCTIONAL PROGRAMS (CIP) CODES DISCIPLINE CLUSTERS

The analyses in this section are based on the number of degrees and other awards conferred by discipline cluster.

“Classification of Instructional Programs (CIP): A taxonomic coding scheme for secondary and postsecondary instructional programs. It is intended to facilitate the organization, collection, and reporting of program data using classifications that capture the majority of reportable data. The CIP is the accepted federal government statistical standard on instructional program classifications and is used in a variety of education information surveys and databases.”

“CIP Code: A six-digit code in the form xx.xxxx that identifies instructional program specialties within educational institutions.” (*Data source: IPEDS Glossary*)

CIP codes are updated approximately every 10 years by the National Center for Education Statistics. Beginning with the collection of awards for the 2019-20 academic year, IPEDS implemented the use of 2020 CIP codes. Since the *Factual Look* report focuses on discipline clusters for analyses, the only substantive change that affected Nebraska institutions is that veterinary-related programs are now reported under CIP 1 (agricultural/animal/plant/veterinary science and related fields) rather than CIP 51 (health professions and related programs). This change means that the veterinary-related programs are coded under the STEM discipline cluster, rather than the Health discipline cluster, beginning with awards conferred in 2019-20.

The following discipline clusters are based on the two-digit CIP codes defined by the National Center for Education Statistics.

Note. Data source: Classification of Instructional Programs, Integrated Postsecondary Education Data System (IPEDS), National Center for Education Statistics, U.S. Department of Education, April 17, 2025.

^aBeginning with the *2021 Factual Look*, CIP 22 (legal professions and studies) is classified under the Business and Communication discipline cluster (rather than the Trades discipline cluster). This change was made retroactively for all reporting years in the *2021 Factual Look*.

Section 6

Completers by Age Group

CLASSIFICATION OF AGE GROUP

The analyses in this section are based on the number of students who earned awards by age group.¹

Unlike the preceding sections of this report, which analyze the number of degrees and other awards conferred, the analyses in this section focus on the number of completers who received degrees by award level.

“**Completer**: A student who receives a degree, diploma, certificate, or other recognized postsecondary credential. In order to be considered a completer, the degree/award must actually be conferred.” (*Data source: IPEDS Glossary*)

Each student is counted only once per award level. For example, if a student is awarded two bachelor’s degrees, the student is only counted once. If a student is awarded an associate’s degree and a bachelor’s degree, that student is counted once at the associate’s level and once at the bachelor’s level.

Another important distinction between Sections 1 through 5 and Section 6 is that IPEDS award levels are consolidated for data collected on age groups. As outlined on pages 2.2 and 2.3, IPEDS currently utilizes 12 award levels for data collected on the number of awards. However, for data collected on the number of completers, IPEDS utilizes only eight award levels. As outlined in the following table, the notable differences between the awards levels are 1.) Postbaccalaureate and post-master’s certificates are reported as one category for age group data (prohibiting the Commission from collapsing bachelor’s degrees with postbaccalaureate certificates and collapsing master’s degrees with post-master’s certificates), and 2.) Research/scholarship, professional practice, and other doctoral degrees are reported as one category for age group data (prohibiting the Commission from analyzing doctoral degrees by classification).

¹ Student’s age at the time the award was conferred.
